Are you claiming Benefit?

If you are receiving help to pay rent or council tax, it is important that you make us aware of any changes in your circumstances that could affect the amount of benefit you are being paid.

Those changes could be:

- a change in your household composition
- a change in your income - tax credits, pensions, earnings (start or stop overtime)
- your capital increases - if all your bank, building society and post office accounts, stocks and shares add up to more than £16,000 you will probably not be entitled to benefit
- your address changes
- you or your partner go into hospital

- your children leave school/become or stop being students/start work/their earnings change

It is important that we know if circumstances change because you could be overpaid benefit which then has to be repaid.
