Narrative Statement

1. Introduction

The purpose of this explanatory foreword is to provide an easily understandable guide to the most significant matters reported in the accounts, and an explanation in overall terms of the Council's financial position. The explanatory foreword also includes an explanation of the purpose of each statement and the relationships between each of these statements.

The Council's accounts for the year ended 31 March 2017 are presented in the format laid down in The Code of Practice on Local Authority Accounting in the United Kingdom 2016/17 (The Code) – issued by the Chartered Institute of Public Finance and Accountancy in accordance with the International Accounting Standards Board framework for the preparation and presentation of financial statements as implemented by The Code. The Code is based upon International Financial Reporting Standards (IFRS).

2. Statement of Accounts

The Council's statutory accounts for the year 2016/2017 are set out in pages 1 to 106. They consist of:-

Statement of Responsibilities for the Statement of Accounts

This explains both the Council's and the Chief Finance Officer's responsibilities in respect of the Statement of Accounts.

Expenditure and Funding Analysis

This statement shows how the annual expenditure is used and funded from resources by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices.

Comprehensive Income & Expenditure Statement

This statement shows the Net Cost of Services provided by the Council and how this has been financed from government grants and local taxpayers. The statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation.

Movement in Reserves Statement

The Movement in Reserves Statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves.

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council are matched by the Reserves held by the Council.

Cash Flow Statement

This statement shows the changes in cash and cash equivalents of the Council during the financial year. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.

Notes to the Core Financial Statements

These notes present information about the basis of preparation of the financial statements and the specific accounting policies applied.

Housing Revenue Account

This reflects a statutory obligation to account separately for local authority housing provision. It shows the major elements of housing revenue expenditure and how these costs are met.

Collection Fund

This shows income and expenditure relating to Council Tax and National Non-Domestic Rate Collection.

Glossary of Terms

Explaining the meaning of the terms used in the statements.

Annual Governance Statement

This explains the Council's responsibilities in respect of the controls in place in relation to all aspects of corporate governance.

Independent Auditors' Report

This provides the audit opinion on the Statement of Accounts.

3. Summary Financial Position for 2016/17**Revenue Expenditure**

Revenue Expenditure is generally spent on items which are consumed within the year and is financed from Council Tax, Business Rates, Government Grants, rents and other income. Revenue Expenditure for 2016/2017 is summarised in the Comprehensive Income and Expenditure Statement.

The Council operates two main revenue accounts – the General Fund and the Housing Revenue Account. General Fund expenditure on items such as housing benefit payments, waste collection and planning is financed by Council Tax, fees and charges levied for services and central Government grant. The Housing Revenue Account is a statutory, ring fenced account and receives all of the costs associated with the Council's housing stock. It is financed by the rents from council housing. By law, the costs associated with the Housing Revenue Account cannot fall burden on the council taxpayer.

The main components of the Council's original, revenue budget for 2016/17 and how these compare with the actual outturn are set out below. The final revenue outturn position for 2016/17 is a total revenue funding surplus for the Council of £1,178,734. This is made up of £926,715 for the General Fund and £252,019 for the Housing Revenue Account. Details of the major variances contributing to this surplus were reported to the Council's Corporate Board meeting on 13th June 2017 and changes and updates to the latest budget for 2016/17 have been approved by Corporate Board as a result of the quarterly performance reports presented to the meetings in September, November and March. The reports are all available to view on the Council's website at www.richmondshire.gov.uk.

	Original Budget	Actual	Variance Over or (Under) Budget
	£	£	£
Net Expenditure by Business Theme:- General Fund			
Resources	1,820,490	1,424,430	(396,060)
Statutory & Regulatory	2,176,740	2,153,026	(23,714)
Operational Service	2,257,720	2,066,620	(191,100)
Drainage Board Levies	20,020	21,232	1,212
Total General Fund Net Expenditure	6,274,970	5,665,308	(609,662)
Housing Revenue Account Net Expenditure	6,423,110	6,392,045	(31,065)
Total Net Expenditure – Under Spend on Budget	12,698,080	12,057,353	(640,727)
Financed by Income from: General Fund			
Revenue Support Grant	(1,002,943)	(1,002,942)	1
Business Rates	(1,273,417)	(1,742,996)	(469,579)
Council Tax	(3,846,186)	(3,846,085)	101
General Fund Funding	(6,122,546)	(6,592,023)	(469,477)
Housing Revenue Account Funding from Rents	(6,566,890)	(6,644,064)	(77,174)
Total Funding	(12,689,436)	(13,236,087)	(546,651)
Budget/Funding (Surplus) Transferred (to) Reserves	(8,644)	(1,178,734)	(1,187,378)

The Business Theme expenditure headings and figures reported above reflect the Council's organisational and management structure.

As indicated in the table above the "bottom line" revenue outturn in 2016/17, as compared to budget, resulted in a variance, an under spend on budget, of £640,727. A summary of the main reasons for the major variances from budget is as follows:-

Strategy & Regulatory

A significant underachievement on planning fee income which was countered by a number of smaller expenditure underspends across a range of services.

Operational

Income exceeded budget across a number of areas, most notably car parking. There were also a number of staff savings across waste, recycling and street scene.

Resources

Key items are saving on Housing Benefit payments and receipts against budget, linked to the move to Universal Credit. There was also a saving on interest costs due to under borrowing and less bad debt provision required than anticipated.

Housing Revenue Account

A number of expenditure savings across the services were partially offset by additional revenue contributions to capital.

Business Rates

The business rates retention scheme introduced in 2013/14 has resulted in continued uncertainty in relation to funding estimates. A significant rating appeal in respect of the MOD properties at Catterick Garrison was settled by the Valuation Office during 2014/15 and this had a significant impact on the Council's Collection Fund at the time. The Council joined the North Yorkshire Business Rates Pool with effect from 1 April 2014 which enabled a sharing of increased and decreased business rates across the pool, which is beneficial for all the authorities in the pool. The plans to localise business rates and the 2017 revaluation also add uncertainty

The spending, financing and surplus figures reported above are also not the same as those reported in the Comprehensive Income & Expenditure Statement. This is because of a number of accounting transactions that are required, under International Financial Reporting Standards, to be reflected in the Comprehensive Income & Expenditure Statement but have no impact on funding or the level of Council Tax required. The Expenditure and funding Analysis documents these changes.

Capital Expenditure

Capital Expenditure is spent on items which have value to the Council or the community for more than one year and can be financed from borrowing, income realised from the sale of capital assets and revenue contributions or internal funds/reserves.

In 2016/17 the Council spent £2,682,912 (2015/16 £2,830,020) on capital schemes. An analysis of where the money was spent and the sources of funding are shown in the tables below:

2015/16 %	2015/16 £000's	Capital Expenditure Analysis	2016/17 %	2016/17 £000's
12	342	Operational (General Fund)	13	329
78	2,212	Operational (HRA)	68	1,835
9	241	Resources	10	268
1	35	Strategy and Regulatory	9	251
100	2,830	Total Capital Expenditure	100	2,683
2015/16 %	2015/16 £000's	Where the Money Came From	2016/17 %	2016/17 £000's
4	115	Government Grants	6	171
23	658	Capital Receipts	10	254
17	484	Revenue Contributions	28	748
56	1,573	Major Repairs Allowance	56	1,510
100	2,830	Total Capital Expenditure	100	2,683

The majority of the Council's total capital expenditure in 2016/17 was in respect of improvement works to the Council's Housing Stock.

4. Review of Financial Position

The Council works to a medium term financial strategy which sets a level of affordability for the operational budget for annual General Fund revenue expenditure (expenditure funded from Council Tax) and for a 10 year programme of capital expenditure. The financial strategy, revenue budget, capital programme and treasury management strategy are all reviewed annually. The financial strategy aims to deliver the revenue and capital programmes whilst maintaining the Council's reserves at a prudent level.

For Housing Revenue Account expenditure (expenditure on Council Housing funded from rents), the Council works to a 30 year business plan. The business plan has been adapted from 2012/13 to take account of recent changes to the system of local government housing finance. The business model aims to repay the debt allocated to the Council by Central Government under this new system within 20 years.

At the start of the financial year, 1 April 2016, the Council's unallocated revenue reserves stood at £6.93m (£5.17m General Fund and £1.75m Housing Revenue Account). By the end of the financial year, 31 March 2017, balances on unallocated revenue reserves totalled £8.72m (£6.42m General Fund and £2.30m Housing Revenue Account.)

The balance sheet position as at 31 March 2017 shows an increase in the Council's net worth of £18.96m. This is largely due to the revaluation of HRA dwellings, specifically the change in the social housing adjustment factor.

5. Borrowing

The Council's ability to borrow is governed by the Local Government Act 2003 and the CIPFA Prudential Code for Capital Finance in Local Authorities. The Council is able to determine its own programme for capital investment in fixed assets that will assist in the delivery of its services to the people of the Richmondshire District subject to that programme being affordable, prudent and sustainable.

At the end of the financial year, the Council's long term borrowing was £18,436,530. The majority of this debt, £16,675,832, is in relation to the loan taken in 2011/12 as a result of the Government's changes to the national system of social housing finance.

6. Employee Benefits and Pension Liabilities

The Council is a member of the North Yorkshire Pension Fund, which is part of the Local Government Pension Scheme. This is a scheme which provides defined benefits based on members' final pensionable salary. In the Council's accounts, a liability for future pension costs is recognised on the Balance Sheet, and pension contributions are shown in the Comprehensive Income and Expenditure Statement. The figures presented in the annual accounts are prepared in accordance with International Accounting Standard 19 (IAS 19) for Employee Benefits. Under IAS 19 the Council is required to disclose the total value of all pension payments that have accumulated (including deferred pensions) at the 31 March each year. This value is made up of:

- The total cost of pensions that are being paid out to former employees who have retired.
- The total sum of the pension entitlements earned to date for current employees.

The standard also requires all investments (assets) to the Pension Fund to be shown at their market value at 31 March each year. In reality, the value of such investments fluctuates on a day-to-day basis but this is ignored for the purpose of the accounting standard. Comparing the value of all future pension payments and the value of investments, as at 31 March, results in either an overall surplus or deficit for the Pension Fund. This is called the IAS 19 surplus or deficit.

The Balance Sheet includes a Pensions Reserve, which shows a net liability to the Pension Fund of £16,597,000 as at 31 March 2017. This effectively means that the Council has historically underpaid contributions relative to the future benefits earned to date by its employees. The liability increased by

£626,000 (4%) in 2016/2017. The change in the position is as a result of changes to the assumptions used by the Actuary.

Further information in respect of retirement benefits is disclosed in Note 37 to the Statement of Accounts.

7. Changes to The Code of Practice on Local Authority Accounting 2016/17

A number of key accounting and presentational changes have been introduced in 2016/17. Details of those that impact on the financial statements of the Council are as follows:-

- **Presentation of Financial Statements and Narrative Reporting**– Changes made to the code around segmental reporting arrangements for the CIES and adding the Expenditure and Funding Analysis. The new Expenditure and Funding Analysis brings together performance reported on the basis of expenditure measured under proper accounting practices with statutorily defined charges to the General Fund and HRA. 17. Both the Comprehensive Income and Expenditure Statement and the Expenditure and Funding Analysis include a segmental analysis which requires local authorities to report performance on the basis of how they are structured and how they operate, monitor and manage financial performance rather than in accordance with SeRCOP definitions.
- **Example Financial Statements** – These have been updated to reflect the new formats and the inclusion of the Expenditure and Funding Analysis.
- **Other changes** – there have been a number of other changes around Related Party Disclosures, Statements Reporting Reviews of Internal Controls, Concepts and Accounting and Reporting by Pension Funds

In preparing these financial statements consideration has been given to these suggested changes and amendments have been made to the approach and presentation where required.

8. Other Sources of Information

This Statement of Accounts forms one element of the Council's financial reporting to local taxpayers, employees and other interested parties. Further performance information can be found on the Council's website www.richmondshire.gov.uk.

9. Inspection and Audit of Accounts

Under the Local Audit and Accountability Act 1998 members of the public have the right to inspect the Council's accounts and supporting documents and to question the auditor about, or make objections to, the matters contained within them. The times at which the accounts are deposited for inspection are advertised on the Council's website www.richmondshire.gov.uk

The Council's external auditors are:

Ernst & Young
St James Boulevard
NEWCASTLE
NE1 4JD

10. Further Information

Further information about the accounts is available from the Chief Financial Officer, Mercury House, Station Road, Richmond, North Yorkshire, DL10 4JX and on the Council's website at www.richmondshire.gov.uk.

S Moore
Chief Financial Officer

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Council's Responsibilities

The Council is required:-

- To make arrangements for the proper administration of its financial affairs and to secure that an officer has responsibility for the administration of those affairs. In this Council, that officer is the Chief Financial Officer;
- To manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- To approve the Statement of Accounts.

I confirm that the Audit, Governance & Standards Committee of Richmondshire District Council approved this Statement of Accounts at the meeting held on 28 September 2017.

Cllr Geoffrey Linehan
Chair of Audit, Governance & Standards Committee
Date: 28 September 2017.

The Chief Financial Officer's Responsibilities

The Chief Financial Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Chief Financial Officer has:

- Selected suitable accounting policies and then applied them consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the Code of Practice.

The Chief Financial Officer has also:

- Kept proper accounting records which were up to date;
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

Statement by the Chief Financial Officer

I certify that this Statement of Accounts gives a true and fair view of the financial position of Richmondshire District Council at 31st March 2017 and its income and expenditure for the year then ended.

Sian Moore, ACA
Chief Financial Officer
Date: 28 September 2017

EXPENDITURE AND FUNDING ANALYSIS

The objective of the Expenditure and Funding Analysis is to demonstrate to council tax and rent payers how the funding available to the council (i.e. government grants, rents, council tax and business rates) for the year has been used in providing services in comparison with those resources consumed or earned by council's in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the council's directorates (services). Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement. While being prominent in the accounts, the EFA is not a primary statement.

2015/2016				2016/2017

(6,138)			Closing General Fund and HRA Balance at 31 March (*)	(7,628)		

(*) For a split of this balance between the General Fund and the HRA – see the Movement in Reserves. Please note that the General Fund Balance also includes the Earmarked Reserves balance.

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation or rents. Council's raise taxation and rents to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement.

2015/2016 (Restated)				2016/2017

		614,925	Other Operating Expenditure (Note 11)			697,869
		1,341,891	Financing and Investment Expenditure/(Income) (Note 12)			2,395,209
		(5,968,694)	Taxation and Non-Specific Grant Income and expenditure (Note 13)			(6,426,008)
		(590,845)	(Surplus) or Deficit on Provision of Services			(17,434,316)
		(253,037)	(Surplus) or Deficit on Revaluation of Property, Plant and Equipment (Note 14 & Note 20)			(1,685,855)
		(2,612,000)	Actuarial (Gains)/Losses on Pension Assets / Liabilities (Note 37)			157,000
		(2,865,037)	Other Comprehensive Income and Expenditure			(1,528,855)
		(3,455,882)	Total Comprehensive Income and Expenditure			(18,963,171)

The 2015/2016 Comprehensive Income and Expenditure Statement has been restated in line with the recommendations contained in the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom. This requires the income and expenditure making up the Cost of Services based on the organisational structure under which the Council operates and manages its services.

MOVEMENT IN RESERVES STATEMENT

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'. This statement shows how the movements in year of the council's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax or rents for the year. The Net Increase/Decrease line shows the statutory General Fund Balance and Housing Revenue Account Balance movements in the year following those adjustments.

BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

2015/2016		2016/2017
£		£
(590,845)	Net (surplus)/deficit on the provision of services	(17,434,316)
(3,657,075)	Adjustments to net (surplus)/deficit on the provision of services for non cash movements (Note 25)	9,804,033
476,477	Adjustments for items included in the net (surplus)/deficit on the provision of services that are investing and financing activities (Note 26)	437,291
(3,771,443)	Net cash (inflows)/outflows from Operating Activities	(7,192,992)
1,357,178	Investing Activities (Note 27)	1,668,444
1,788,214	Financing Activities (Note 28)	1,260,413
(626,051)	Net (increase)/decrease in cash and cash equivalents	(4,264,135)
(2,873,292)	Cash and cash equivalents at the beginning of the year	(3,499,343)
(3,499,343)	Cash and cash equivalents at the end of the year (Note 19)	(7,763,478)

NOTES TO THE CORE FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

i) General Principles

The Statement of Accounts summarise the Council's transactions for the 2016/2017 financial year and its position at the year ending 31 March 2017. The Council is required to prepare an annual Statement of Accounts by the *Accounts and Audit (England) Regulations 2015*, which those Regulations require to be prepared in accordance with proper accounting practices.

These practises under Section 21 of the 2003 Act primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2016/17, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under section 12 of the 2003 Act..

The accounting convention adopted is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

ii) Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Fees, charges and rents due from customers are accounted for as income at the date the Council provides the relevant goods or services.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest payable on borrowings and receivable on investments is accounted for on the basis of the effective interest rate for the relevant financial instrument rather than cash flows fixed or determined by the contract.
- Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Income and expenditure are credited and debited to the relevant service revenue line in the Comprehensive Income and Expenditure Statement, unless they represent capital receipts or capital expenditure.

iii) Cash and Cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

iv) Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policy or to correct a material error. Changes in accounting estimates are accounted for prospectively i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy has always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

v) Charges to Revenue for the Use of Non-current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue to towards the reduction in its overall borrowing requirement (equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance). Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

vi) Council Tax and Non-Domestic Rates

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

Accounting for Council Tax and NDR

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the authority's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the council's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the authority's share of the end of year balance in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

vii) Employee Benefits

Benefits Payable During Employment

Short term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as salaries and wages, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees and as far as practicable will be recognised in the year in which the service is rendered by the employees to the Council. An accrual is made for the cost of holiday entitlements (or any form of leave) earned by employees but not taken before the year end which employees can carry forward into the next financial year. The accrual is made at the salary and wages rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to the General Fund and Housing Revenue Account in the financial year in which the holiday absence occurs.

Termination Benefits

Termination Benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service or, where applicable, to the Non Distributed Costs line in the Comprehensive Income and Expenditure Statement at the earlier of when the authority can no longer withdraw the offer of those benefits or when the council recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

Post Employment Benefit

Employees of the Council are members of the Local Government Pension scheme, administered by North Yorkshire County Council.

The scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council.

The Local Government Pension Scheme is accounted for as a defined benefits scheme:

- The liabilities of the North Yorkshire Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 3.4% (based on the indicative rate of return on high quality corporate bond [iBoxx Sterling AA corporate bond]).

- The assets of the North Yorkshire Pension Fund attributable to the Council are included in the balance sheet at their fair value:
 - Quoted securities – current bid price
 - Unquoted securities – professional estimate
 - Unitised securities – current bid price
 - Property – market value

The change in the net pensions liability is analysed into a number of components:

- Service cost comprising:
 - Current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the revenue accounts of services for which the employees worked.
 - Past service cost – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Net Cost of Services in Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
 - Net interest on the net defined benefit liability (asset), i.e. net interest expense for the Council – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
- Remeasurements comprising:
 - The return on plan assets – excluding amounts included in the net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
 - Actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
 - Contributions paid to the North Yorkshire Local Government pension fund – cash paid as employer’s contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to the pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement this means that there are transfers between the General Fund and the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any amounts payable but un-paid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

viii) Events after the Reporting Period

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the Balance Sheet date this will be classed as an adjusting event and the Statement of Accounts will be amended to reflect this event. A disclosure will also be made in the Events After Balance Sheet date note (Note 6).
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, a disclosure will be made in the Events After the Balance Sheet Date note (Note 6) giving the nature of the event and an estimate of the financial effect or statement that an estimate cannot be reliably made.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

ix) Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest) and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is retrospectively deducted from or added to the amortised cost of the new modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge

required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified into two types:

- loans and receivables – assets that have fixed or determinable payments but are not quoted in an active market
- available-for-sale assets – assets that have a quoted market price and/or do not have fixed or determinable payments.

Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Council becomes party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, the Council has made a number of loans to Parish Councils and voluntary organisations at less than market rates (soft loans). Where material, statutory provisions are required to be made in the accounts. The loans made by Richmondshire District Council are not material.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains or losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Available-for-sale Assets

Available-for-sale assets are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council.

Assets are maintained on the Balance Sheet at fair value. Values are based on the following principles:

- instruments with quoted market prices - the market price
- other instruments with fixed and determinable payments - discounted cash flow analysis

Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain/loss is recognised within the Surplus or Deficit on Revaluation of Available-for-Sale Financial Assets. The exception is where impairment losses have been incurred - these are debited to the Financing and

Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain/loss for the asset accumulated in the Available-for-sale Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that payments are due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available-for-Sale Reserve.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

x) Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-specific Grant Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

xi) Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council

will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible assets held by the Council meet this criteria, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £6,000) the Capital Receipts Reserve.

xii) Inventories and Long-term Contracts

Inventories are included in the Balance Sheet at average cost, with an allowance made for obsolete items. The effect of this valuation method as opposed to the lower of cost and net realisable value is not material.

Long-term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

xiii) Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arms-length. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £6,000) the Capital Receipts Reserve.

xiv) Jointly Controlled Operations and Jointly Controlled Assets

The Council is in partnership with Richmondshire Leisure Trust (RLT) for the delivery of Leisure Services in the District by RLT. This arrangement for delivery of services is through the use of jointly controlled assets.

Jointly controlled operations are activities undertaken by the Council in conjunction with other ventures that involve the use of assets of the venturers rather than the establishment of a separate entity.

Jointly controlled assets are items of property, plant and equipment that are jointly controlled by the Council and other venturers (RLT), with the assets being used to obtain benefits for the venturers (RLT). The joint venture does not involve the establishment of a separate entity. The Council accounts for only its share of the jointly controlled assets, the liabilities and expenses that it incurs on its own behalf in respect of its interest in the venture.

xv) Leases

Leases are classed as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor or lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expense in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant and equipment – applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the authority at the end of the lease period).

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General

Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Leases that do not meet the definition of finance leases are accounted for as operating leases. Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

The Council as Lessor

Finance Leases

Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease asset (long-term debtor) in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premiums received), and
- finance income (credited to the Financing and Investment Income line in the Comprehensive Income and Expenditure Statement.)

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted from the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Lease

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments. Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

xvi) Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the *CIPFA Service Reporting Code of Practice 2016/17 (SeRCOP)*. The total absorption costing principle is used – the full cost of overheads and

support services are shared between users in proportion to the benefits received, with the exception of:

- a. Corporate and Democratic Core – costs relating to the Council’s status as a multi-functional, democratic organisation.
- b. Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and any impairment losses chargeable on Assets Held for Sale.

These two cost categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services. The main bases of allocation are as follows:

Cost:	Basis of Allocation:
Central Support Services	Estimated time spent by staff
Office Buildings	Floor Space Occupied
Information Technology (non staff)	Actual usage
Telephones/Postage/Photocopy	Actual usage

xvii) Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accrual basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset’s potential to deliver future economic benefits or service potential (e.g. repairs and maintenance) is charged to the Comprehensive Income and Expenditure Statement as it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction – depreciated historical cost

- dwellings fair value, determined using the basis of existing use value for social housing (EUV-SH)
- all other assets – fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV)

Where there is no market based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years.

The freehold and leasehold properties which comprise the Council's property portfolio are valued on a 5 year rolling programme by external independent valuer, Kier Business Services Limited (Chartered Surveyors), in accordance with the Statements of Asset Valuation Practice and Guidance Notes of the Royal Institution of Chartered Surveyors, except that:

- not all properties were inspected. This was neither practical nor considered by the valuer to be necessary for the purpose of the valuation
- for all Council Houses of a similar type, the “beacon” principle was adopted
- IT assets are not revalued as almost all of them have an expected life of 5 years.

Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Surplus or Deficit on the Provision of Services where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Componentisation

All property assets containing a building are split into two components – Land and Buildings. The buildings are then further reviewed to assess if there are additional components which should be recognised. This assessment is based on the value of the building and the value of the components. A materiality level has been set below which this additional review will not be done. Only buildings with a value greater than £150,000 will be considered for componentisation. The cost of the component should be at least 20% of the value of the building. Components whose value is under this level will be considered if the circumstances are deemed appropriate. Componentisation will only be done either at the full 5 yearly valuation or when major capital improvements are undertaken.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where it is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- dwellings and other buildings – straight-line allocation over the useful life of the property as estimated by the valuer
- vehicles, plant and equipment – straight line allocation over the life of the asset, as advised by a suitably qualified officer
- infrastructure - straight line allocation over 25 years or less if appropriate.

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have

been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

The criteria which must be satisfied for assets to be classified as held for sale are:-

- The asset must be available for immediate sale in its present condition subject only to terms that are usual or customary for sales of such assets.
- The sale must be highly probable
- The appropriate level of management must be committed to a plan to sell the asset.
- An active programme to locate a buyer and complete the plan must have been initiated.
- The asset must be marketed for sale at a price that is reasonable in relation to the current value.
- The sale should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received in excess of £6,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals (75% for dwellings, 50% for land and other assets, net of statutory deductions and allowances) is payable to Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council Tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

xviii) Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council an obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, based on the best estimate at the balance sheet date of the expenditure required to settle the obligation, and

are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision set up in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed as a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be inflow of economic benefits or service potential.

xix) Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service line in Comprehensive Income and Expenditure Statement in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure. An analysis of the movement on the reserves is shown in Notes 9 and 10.

Certain reserves are kept to manage the accounting processes for tangible non-current assets and retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

The Council maintains a General Fund Working Balance and also holds reserves earmarked for specific purposes which are detailed in Note 10 of the Notes to the Statement of Accounts. These reserves together with the Capital Grant Unapplied Reserve are deemed to be distributable reserves, which can be utilised to support future expenditure and are known as Usable Reserves.

Non-distributable reserves or Unusable Reserves include the Revaluation Reserve and the Capital Adjustment Account and represent “technical non-cash” reserves which are maintained to manage the accounting processes for non-current assets. The Pension Reserve is a reserve which has been set up to manage the accounting process for retirement benefits and does not represent usable resources for the Council. These reserves do not impact upon the level of local taxation and are not able to be utilised in support of service delivery.

xx) Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of non-current assets has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer to the Capital Adjustment Account then reverses out the amounts charged in the Movement in Reserves Statement so there is no impact on the level of council tax.

xxi) VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from Income.

xxii) Fair Value measurement

The authority measures some of its non-financial assets such as investment properties and some of its financial instruments such as equity shareholdings at fair value at each reporting date. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the authority takes in account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The authority uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the authority's financial statements are categorised within fair value hierarchy as follows:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 - unobservable inputs for the asset or liability.

2. Accounting Standards that have been Issued but have not yet been Adopted

International Accounting Standard 8 requires entities to disclose the expected impact of new standards that have been issued but not yet adopted. Local Authorities are now required to disclose information relating to the impact of the accounting change. For the financial year 2016/2017 it would mean that any standards issued on or before 1 January 2017 will need to be disclosed.

The following accounting policy changes were issued prior to 1 January 2017, have not yet been

adopted for the 2016/17 Statement of Accounts but are required to be disclosed here:

- Amendment to the reporting of pension fund scheme transaction costs
- Amendment to the reporting of investment concentration

3. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- influences on going concern. There is a high degree of uncertainty about future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision
- possible impairment of investments
- whether other entities with which the Council has a relationship are subsidiaries, associates or jointly controlled entities
- whether contracts need to be accounted for as service concessions or with embedded leases
- whether a lease is an operating or a finance lease – the Council has a number of vehicles and equipment under leasing agreements
- whether the Council’s exposure to possible losses is to be accounted for as a provision or a contingent liability. The Council has made provision for business rate appeals in relation to all businesses. This provision is based on the best estimate of the actual liability as at the year end in known appeals.
- whether land and buildings owned by the Council are investment properties – a number of the Council’s assets are classified and held as investment properties.

4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council’s Balance Sheet at 31 March 2017 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, bringing into doubt	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets fall. It is estimated that the annual depreciation charge for buildings would increase by £238,538 for every year that useful lives had to be reduced.

	the useful lives assigned to assets.	
Pensions Liability	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.</p>	<p>The effects on the net pension liability of changes in individual assumptions can be measured. For instance, a 0.1% increase in the discount rate assumption would result in a decrease in the pension liability of £1,116,000.</p> <p>However, the assumptions interact in complex ways. During 2016/17, the Council's actuaries advised that the net pension liability had increased by £626,000 due to updating of assumptions.</p>
Arrears	<p>At 31 March 2017, the Council had a balance of sundry debtors for £669,658. A review of significant balances suggested that an impairment of doubtful debts of 74% (£497,738) was appropriate. However, in the current economic climate it is not certain that such an allowance would be sufficient.</p>	<p>If collection rates were to deteriorate, an increase to the amount of the impairment of doubtful debts to cover the entire balance would require an additional £171,920 to be set aside as an allowance.</p>
Fair value measurement	<p>When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (i.e. Level 1 inputs), their fair value is measured using valuation techniques (e.g. quoted prices for similar assets or liabilities in active markets or the discounted cash flow (DCF) model).</p> <p>Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the council's assets and liabilities.</p> <p>Where Level 1 inputs are not available, the authority employs relevant experts to identify the most appropriate valuation techniques to determine fair value (for example for investment properties the authority's external valuer).</p> <p>Information about the valuation techniques and inputs used in</p>	<p>The council uses the discounted cash flow (DCF) model to measure the fair value of some of its investment properties and financial assets.</p> <p>The significant unobservable inputs used in the fair value measurement assumptions regarding rent growth, vacancy levels (for investment properties) and discounted rates – adjusted for regional factors (for both investment properties and some financial assets).</p> <p>Significant changes in any of the unobservable inputs would result in a significantly lower or higher fair value measurement for the investment properties and financial assets.</p>

	determining the fair value of the council's assets and liabilities is disclosed in notes 14 and 16 below).	
--	--	--

5. Material Items of Income and Expense

During 2016/17 there were no material items of income and expense.

6. Events after the Balance Sheet Date

The Statement of Accounts was authorised for issue by the Corporate Director and Section 151 Officer on the 28 September 2017. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information on conditions existing at 31 March 2017, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

Information has come to light in the post balance sheet period that potentially indicates that the market value of land held at Gatherley Road has increased by a material amount from its carrying value at the year end. This information represents a non-adjusting event and therefore the accounts have not been adjusted for this information.

7. A.) Note to the Expenditure and Funding Analysis

Adjustment from General Fund to arrive at the Comprehensive Income and Expenditure Statement amounts	Adjustments between Funding and Accounting Basis 2016/17			
	Adjustments for Capital Purposes (Note 1)	Net change for the Pensions Adjustments (Note 2)	Other Differences (Note 3)	Total Adjustments
	£'000	£'000	£'000	£'000
Operational (GF)	(341)	166	-	(175)
Operational (HRA) Resources	17,560	(71)	-	17,489
Strategy & Regulatory	(208)	(170)	-	(378)
	(93)	131	-	38
Net Cost of Service	16,918	56	-	16,974
Other income and expenditure from the Expenditure and Funding Analysis	(891)	(525)	387	(1,029)
Difference between General Fund surplus or deficit and Comprehensive Income and Expenditure Statement Surplus or Deficit on the Provision of Services	16,027	(469)	387	15,945

Adjustments between Funding and Accounting Basis 2015/16				
Adjustment from General Fund to arrive at the Comprehensive Income and Expenditure Statement amounts	Adjustments for Capital Purposes (Note 1)	Net change for the Pensions Adjustments (Note 2)	Other Differences (Note 3)	Total Adjustments
	£'000	£'000	£'000	£'000
Operational (GF)	(169)	184	(5)	10
Operational (HRA)	666	(25)	1	642
Resources	(231)	(362)	9	(584)
Strategy & Regulatory	36	118	(2)	152
Net Cost of Service	302	(85)	3	220
Other income and expenditure from the Expenditure and Funding Analysis	(95)	(558)	1,343	690
Difference between General Fund surplus or deficit and Comprehensive Income and Expenditure Statement Surplus or Deficit on the Provision of Services	207	(643)	1,346	910

Adjustments for Capital Purposes

Note 1: Adjustments for capital purposes – this column adds in depreciation and impairments and revaluation gains and losses in the services line, and for:

- **Other operating expenditure** – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- **Financing and investment income and expenditure** – the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- **Taxation and non-specific grant income and expenditure** – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Net Change for the Pension Adjustments

Note 2: Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income.

- **For services** this represents the removal of the employer pension contributions made by the council as allowed by statute and the replacement with current service costs and past service costs.
- **For Financing and investment income and expenditure** – the net interest on the defined benefit liability is charged to the Comprehensive Income and Expenditure Statement.

Other Differences

Note 3 : Other Differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute.

- For **Financing and investment income and expenditure** the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
- The charge under **Taxation and non-specific grants income and expenditure** represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

7. B.) Segmental Income

Income received on a segmental basis is analysed below:

Services	2016/2017 Income from Services £000	2015/2016 Income from Services £000
Operational (GF)	1,740	1,759
Operational (HRA)	6,675	6,769
Resources	9,270	11,072
Strategy & Regulatory	2,227	1,934
Total income analysed on a segmental basis	19,912	21,534

8. Expenditure and Income Analysed by Nature

The authority's expenditure and income is analysed as follows:

Expenditure/Income	2015/2016	2016/2017
	£'000	£'000
Expenditure		
Employee benefits expenses	6,954	6,474
Other Service expenses	16,100	13,471
Depreciation, amortisation, impairment	2,938	(12,708)
Interest Payments	611	2,466
Precepts and levies	543	575
Payments to Housing Capital receipts Pool	219	245
Gain on the disposal of assets	(147)	(122)
Total Expenditure	27,218	10,401
Income		
Fees, charges and other service income	(11,336)	(9,594)
Interest and investment income	(76)	(1,443)
Income from Council Tax, non domestic rates	(4,816)	(6,426)
Government grants and contributions	(11,581)	(10,372)
Total Income	(27,809)	(27,835)
Surplus or deficit on the Provision of Services	(591)	(17,434)

9. Adjustments between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of an authority are required to be paid out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year. (For housing authorities – however, the balance is not available to be applied to funding HRA services.)

Housing Revenue Account Balance

The Housing Revenue Account Balance reflects the statutory obligation to maintain a revenue account for local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the Council's landlord function or (where in deficit) that is required to be recovered from tenants in future years.

Major Repairs Reserve

The Council is required to maintain the Major Repairs Reserve, which controls the application of Major Repairs Allowance (MRA). The MRA is restricted to being applied to new capital investment in the HRA assets or financing of historical capital expenditure by the HRA. The balance shows the MRA that has yet to be applied at the year end.

Capital Receipts Reserve

The Capital Receipts Reserve holds proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year end

2016/2017	Usable Reserves				
	General Fund Balance	Housing Revenue Account	Capital Receipts Reserve	Major Repairs Reserve	Movement in Unusable Reserves
	£000	£000	£000	£000	£000
Adjustments involving the Capital Adjustment Account:					
<u>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement but required by statute to be excluded from the movement on the General Fund Balance:</u>					
Charges for depreciation and impairment of non current assets	(505)	(1,559)	-	-	2,064
Revaluation gains/(losses) on Property Plant and Equipment	-	16,280	-	-	(16,280)
Movements in the market value of Investment Properties	(1,372)	-	-	-	1,372
Amortisation of intangible assets	(136)	-	-	-	136
Capital grants and contributions	171	-	-	-	(171)
Revenue expenditure funded from capital under statute	(171)	-	-	-	171
Amounts of non current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(72)	(431)	-	-	503
<u>Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement but required by statute to be included in the movement on the General Fund Balance:</u>					
Provision for the financing of capital investment	181	954	-	-	(1,135)
Capital expenditure charged against the General Fund and HRA balances	423	325	-	-	(748)
Adjustments involving the Capital Receipts Reserve:					
Transfer of sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement (CIES)	127	510	(637)	-	-
Use of the Capital Receipts Reserve to finance new capital expenditure	-	-	254	-	(254)
Contribution from the Capital Receipts Reserve towards administrative costs of non current asset disposals	(2)	(10)	12	-	-
Contribution from the Capital Receipts Reserve to finance the payments to the Government capital receipts pool.	(245)	-	245	-	-
Adjustments involving the Major Repairs Reserve:					
Reversal of Notional Major Repairs Allowance credited to the HRA	-	1,559	-	(1,559)	-
Use of the Major Repairs Reserve to finance new capital expenditure	-	-	-	1,510	(1,510)
Adjustments involving the Pensions Reserve					
Reversal of items relating to retirement benefits debited or credited to the CIES (see Note 37)	(1,189)	(366)	-	-	1,555
Employer's pensions contributions and direct payments to pensioners payable in the year	883	203	-	-	(1,086)

2016/2017	Usable Reserves				
	General Fund Balance	Housing Revenue Account	Capital Receipts Reserve	Major Repairs Reserve	Movement in Unusable Reserves
	£000	£000	£000	£000	£000
Adjustments involving the Collection Fund Adjustment Account:					
Amount by which council tax income credited to the CIES is different from council tax income calculated for the year in accordance with statutory requirements	387	-	-	-	(387)
Adjustment involving the Accumulating Compensated Absences Adjustment Account:					
Amount by which officer remuneration charged to the CIES on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	-	-	-	-	-
Total Adjustments	(1,520)	17,465	(126)	(49)	(15,770)

2015/2016	Usable Reserves				
	General Fund Balance	Housing Revenue Account	Capital Receipts Reserve	Major Repairs Reserve	Movement in Unusable Reserves
	£000	£000	£000	£000	£000
Adjustments involving the Capital Adjustment Account:					
<u>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement but required by statute to be excluded from the movement on the General Fund Balance:</u>					
Charges for depreciation and impairment of non current assets	(249)	(1,540)	-	-	1,789
Revaluation gains/(losses) on Property Plant and Equipment	(11)	(781)	-	-	792
Movements in the market value of Investment Properties	(249)	-	-	-	249
Amortisation of intangible assets	(104)	-	-	-	104
Capital grants and contributions	115	-	-	-	(115)
Revenue expenditure funded from capital under statute	(119)	-	-	-	119
Amounts of non current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(755)	(272)	-	-	1,027
<u>Insertion of items debited or credited to the Comprehensive Income and Expenditure Statement but required by statute to be included in the movement on the General Fund Balance:</u>					
Provision for the financing of capital investment	181	930	-	-	(1,111)
Capital expenditure charged against the General Fund and HRA balances	-	484	-	-	(484)
Adjustments involving the Capital Receipts Reserve:					
Transfer of sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement (CIES)	836	405	(1,241)	-	-
Use of the Capital Receipts Reserve to finance new capital expenditure	-	-	658	-	(658)
Contribution from the Capital Receipts Reserve towards administrative costs of non current asset disposals	(12)	(9)	21	-	-
Contribution from the Capital Receipts Reserve to finance the payments to the Government capital receipts pool.	(219)	-	219	-	-

The following sets out the purpose of each reserve:

Service Improvement Reserve – to improve or sustain delivery through the one-off contribution of

funds towards specific projects.

Council Taxpayers Reserve – to alleviate fluctuations in the level of Council Tax.

Collection Fund Cash Flow Reserve – to hold the surplus or deficit on the Collection Fund for the year pending release back to the fund over the following two years in accordance with accounting practice.

Community Safety Partnership Reserve – to receive surpluses or deficits from the Community Safety Partnership Accounts.

Developers Monies Fund – This is a reserve of funds collected from major developers in order to maintain areas of open spaces.

Local Plan Enquiry (Local Development Framework) Fund – the purpose of this reserve is to fund specialist advice and evidence base work necessary to support the preparation of a sound LDF and the formal Examination of Development Plan Documents

Youth Council – set up with money given by the Youth Opportunity Fund, to support special events and fundraising by the Youth Council.

Local Strategic Partnership – This reserve was set up to allow projects (as supported through the Area Partnership funding scheme) time to complete their projects and spend their grant.

Community Opportunity Fund – to receive Government grants in respect of the New Homes Bonus scheme to be spent for the benefit of the residents of Richmondshire in accordance with the Council's Community Opportunity Fund Scheme. The Funding from New Homes Bonus now goes into the Council Tax payers Reserve.

Cyclical Reserve – to finance such cyclical events as approved by Council.

Community Right to Bid – Introduced in 2013/2014 in order to aid the Council's approach to the Localism Act 2011, which introduced the Community Right to Bid as a tool to help communities safeguard the property assets they value.

Lifestyle Partnerships – to aid in RDC delivering the Lifestyle Programme on behalf of RDC Public Health (NYCC) and the Clinical Commissioning group for the area.

Open Spaces Contribution – This fund is used to support enhancements to existing facilities or the provision of new facilities in suitable nearby locations funded by commuted sums from new developments.

Affordable Housing Contribution – This fund is used to support the provision of affordable housing on other sites, based on commuted sums from relevant new developments.

Economic Growth Fund – This fund has been created in order to fund major economic projects across the District as an additional fund to the Small Business Grant Scheme. Application organisations must come from within the District.

Social Fund – This fund is to help Community based projects in the five identified housing growth areas within the District.

Community Housing Fund – This fund has been created in 2016/2017 from a grant received from DCLG to support the delivery of community led housing.

Depreciation

Depreciation is generally provided on all fixed assets other than freehold land, and is charged from the date of purchase up to the date of disposal. Enhancements to the Council House stock are assumed to take place at the start of the year. The Council depreciates its assets on a straight line basis over the expected life of asset.

The following useful lives have been used in the calculation of depreciation:

- Council Dwellings – 60 years
- Other Land and Buildings – 15-60 years
- Vehicles, Plant Furniture & Equipment – 3-10 years

Capital Commitments

At 31 March 2017, the Council has a number of contracts for the enhancement of Property, Plant and Equipment in 2016/2017 and future years budgeted to cost approximately £1.1 million. Similar commitments at 31 March 2016 were £1.5 million. This major ongoing commitment is in relation to the Council's Maintenance and Improvement Partnership for the maintenance and improvement of the Council's housing stock.

Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. The date for the annual revaluation of assets is always 31 March. Property valuations are carried out by the Council's external valuer's Kier Business Services Ltd. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

Note 1 Accounting Policies xvii) on page 25 relates to Property, Plant and Equipment and outlines the Council's approach to valuation.

Business Portfolio

Included in the balance sheet, under the heading of Other Land & Buildings are three assets (Firby Road, Raynes Court and Brunt Acres), which were funded in partnership with Yorkshire Forward, Government Office (ERDF), and North Yorkshire County Council. They are held in the balance sheet at the lower of net current replacement cost and net realisable value in existing use. A proportion of the rental received is paid over to the funding bodies (with exception of the Government Office). Should the assets be sold, again a proportion of the capital receipt equivalent to the proportion of the investment made may be payable to the funding body.

15. Investment Properties

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year:

2015/2016 £		2016/2017 £
2,177,000	Balance at start of the year	1,928,000
-	Addition	27,227
(249,000)	Net gains/(losses) from fair value adjustments	(1,372,000)
-	Transfers: To Assets Held for Sale	-
	From Property, Plant, Furniture and Equipment	
1,928,000	Balance at end of the year	583,227

The investment properties held by the Council are mainly tracts of land.

16. Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets include both purchased licenses and internally generated software.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful lives assigned to the major software suites used by the Council are:

Finite Useful Life	Other Assets
5 years	All software

The carrying amount of intangible assets is amortised on a straight-line basis. The amortisation of £136,465 charged to revenue in 2016/2017 was charged to the Technology Services cost centre. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

The movement on Intangible Asset balances during the year is as follows:

	2015/2016 Software £	2016/2017 Software £
Balance at start of year:		
Gross carrying amounts	656,869	816,427
Accumulated amortisation	(411,677)	(515,330)
Net carrying amount at start of year	245,192	301,097
Additions:		
Purchases	159,558	192,983
Reversals of past impairment losses written back to the surplus/Deficit on the Provision of Services	-	-
Amortisation for the period	(103,653)	(136,465)
Other changes	-	-
Net carrying amount at end of year	301,097	357,615
Comprising:		
Gross carrying amounts	816,427	1,009,410
Accumulated amortisation	(515,330)	(651,795)
	301,097	357,615

The following items of capitalised software are individually material to the Statement of Accounts:

	Carrying Amount		Remaining Amortisation
	31 March 2016 £	31 March 2017 £	Period at 31 March 2017
Financial Management System	30,462	30,101	2 years
Revenues and Benefits System	-	31,420	5 years*
Housing Management System	-	41,595	5 years*
Document Management System	34,731	17,366	2 years
Income Management System	33,433	35,765	3 years*

* There have been significant upgrades and / or contract renewals that have effectively increased the remaining useful life of these systems and the remaining amortisation period has been updated accordingly.

17. Financial Instruments

Categories of Financial Instruments

The following categories of financial instrument are carried in the Balance Sheet.

2015/2016			2016/2017	
Long Term £	Current £		Long Term £	Current £
-	2,910,000	Loans and receivables	-	7,220,000

Total income in the Surplus or Deficit on the Provision of Services	-	(37,233)	-	(37,233)	-	(46,903)	-	(46,903)
Net Gain/(Loss) for the Year	570,640	(37,233)	-	533,407	544,111	(46,903)	-	497,208

Fair Values of Assets and Liabilities

Financial liabilities, financial assets represented by loans and receivables and long-term debtors and creditors are carried in the Balance Sheet at amortised cost.

Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- Estimated interest rates at 31 March 2017 of 0.96% to 2.38% for loans from the PWLB
- No early repayment or impairment is recognised
- Where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values calculated are as follows:

2015/2016			2016/2017	
Carrying amount	Fair Value		Carrying amount	Fair Value
£	£		£	£
(20,608,086)	(21,761,589)	Financial Liabilities	(19,535,910)	(21,468,581)
-	-	Long-term Creditors	-	-

The fair value of the liabilities is higher than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest payable is higher than the rates available for similar loans at the Balance Sheet date. The commitment to pay interest above current market rates increases the amount that the Council would have to pay if the lender requested or agreed to early repayment of the loans.

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

The fair value of Public Works Loan Board (PWLB) loans of £21.469m measures the economic effect of the terms agreed with the PWLB compared with estimates of the terms that would be offered for market transactions at the Balance Sheet date. The difference between the carrying amount and the fair value measure the additional interest that the council will pay over the remaining terms of the loans under the agreements with the PWLB, against what would be paid if the loans were at prevailing market rates.

However, the council has a continuing ability to borrow at concessionary rates from the PWLB rather than from the markets. A supplementary measure of the reduced interest that the authority will pay as a result of its PWLB commitments for fixed rate loans is to compare the terms of these loans with the new borrowing rates available from the PWLB. If a value is calculated on this basis, the carrying amount of £19,536m would be valued at £21.469m. But, if the authority were to seek to avoid the projected loss by repaying the loans to the PWLB, the PWLB would raise a penalty charge for early redemption in addition to (charging a premium for the additional interest that will not now be paid). The exit price for the PWLB loans including the penalty charge would be £23.344m.

18. Short –Term Debtors

2015/2016 £		2016/2017 £
1,158,068	Central Government Bodies	613,224
405,353	Other Local Authorities	994,542
2,291,711	Other Entities and Individuals	2,053,906
3,855,133		3,661,672
(1,084,955)	Provision for Doubtful Debts (see below)	(905,072)
2,770,178	TOTAL	2,756,600
	The provision for bad debts is made up as follows:	
(127,885)	Collection Fund	(116,684)
(685,516)	Sundry Debtors	(497,738)
(271,554)	Housing Rents	(290,650)
(1,084,955)	TOTAL	(905,072)
	The movement on the provision for bad debts is as follows:	
(837,061)	Balance as at 1 April	(1,084,955)
185,102	Write Offs During the Year	341,531
(432,996)	Amounts Charged to the Comprehensive Income & Expenditure Statement and the Collection Fund	(161,648)
(1,084,955)	TOTAL	(905,072)

19. Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

2015/2016 £		2016/2017 £
2,210	Cash held by the Council	2,210
587,133	Bank current accounts	541,268
2,910,000	Short-term deposits with building societies	7,220,000
3,499,343	Total Cash and Cash Equivalents	7,763,478

20. Assets Held for Sale

The following table summarises the movement in the value of assets held for sale over the year:

2015/2016 £		2016/2017 £
548,000	Balance at start of the year	-
(548,000)	Assets Sold	-
-	Balance at end of the year	-

There are currently no assets which meet the criteria of assets held for sale.

21. Short-Term Creditors

2015/2016 £		2016/2017 £
(795,741)	Central Government Bodies	(1,635,191)

(29,954)	Public Corporations and Trading Funds	(24,558)
(1,595,298)	Other Entities and Individuals	(1,231,019)
(2,987,229)	Total	(4,941,059)

22. Provisions

As a result of the localisation of Business Rates with effect from 1 April 2013, the Council makes provision for the potential costs of successful appeals against Business Rates which could result in reductions in rateable values and a reduction in rates collectable. The balance of this provision at 31 March 2017 was £1,167,884.

The Council's proportion of the appeals provision as at 31 March 2017 is £467,154.

The Council has no substantial legal cases in progress and therefore no further provision has been made in the Statement of Accounts for any such costs, employee related or otherwise (2015/2016 there was nil with none known).

23. Usable Reserves

Movements in the council's usable reserves are detailed in the Movement in Reserves Statement.

24. Unusable Reserves

2015/2016 £		2016/2017 £
(3,222,668)	Revaluation Reserve	(4,640,547)
(33,101,180)	Capital Adjustment Account	(49,220,808)
15,971,000	Pensions Reserve	16,597,000
460,187	Collection Fund Adjustment Account	73,055
89,022	Accumulating Compensated Absences Adjustment Account	89,022
(19,803,639)	Total Unusable Reserves	(37,102,279)

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2015/2016 £		2016/2017 £
(3,386,528)	Balance at 1 April	(3,222,668)
(262,037)	(Upward)/Downward revaluation of assets	(1,685,855)
9,000	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	-
(253,037)	Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	(1,685,855)
47,501	Difference between fair value depreciation and historical cost depreciation	267,976
369,396	Accumulated gains on assets sold or scrapped	-
416,897	Amount written off to the Capital Adjustment Account	
(3,222,668)	Balance at 31 March	(4,640,547)

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council.

The Account also contains revaluation gains accumulated on Property, Plant, and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 9 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

2015/2016 £		2016/2017 £
(32,784,734)	Balance at 1 April	(33,101,180)
	<u>Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement (CIES):</u>	
(47,501)	Adjusting amounts written out of the revaluation reserve	(267,976)
1,789,281	Charge for depreciation & impairment non current assets	2,064,350
754,215	Revaluation losses/(gains) on Property, Plant & Equipment	(16,280,469)
103,653	Amortisation of intangible assets	136,465
118,683	Revenue expenditure funded from capital under statute	171,251
657,400	Amounts of non current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	502,969
(29,409,003)	Net written out amount of the cost of non current assets consumed in the year	(46,774,590)
	<u>Capital financing applied in the year:</u>	
(657,746)	Use of Capital Receipts Reserve to finance new capital expenditure	(253,662)
(1,573,480)	Use of Major Repairs Reserve to finance new capital expenditure	(1,510,000)
(114,963)	Capital grants and contributions credited to the CIES that have been applied to capital financing	(171,251)
(1,111,159)	Statutory provision for the financing of capital investment charged against the General Fund and HRA balances	(1,135,305)
(483,830)	Capital expenditure charged against the General Fund and HRA balances	(748,000)
(33,350,180)		(50,592,808)
249,000	<u>Movement in market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement</u>	1,372,000
(33,101,180)	Balance at 31 March	(49,220,808)

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned, to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2015/2016 £		2016/2017 £
17,939,000	Balance at 1 April	15,971,000
(2,612,000)	Actuarial (gains) or losses on pensions assets and liabilities	157,000
1,692,000	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	1,555,000
(1,048,000)	Employer's pensions contributions and direct payments to pensioners payable in the year	(1,086,000)
15,971,000	Balance at 31 March	16,597,000

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2015/2016 £		2016/2017 £
1,803,259	Balance at 1 April	460,187
	Amount by which council tax income and non domestic rates income credited to the Comprehensive Income and Expenditure Statement is different from council tax and non domestic rates income calculated for the year in accordance with statutory requirements:-	
(2,493)	Council Tax	(17,267)
(1,340,579)	Non Domestic Rates	(369,865)
460,187	Balance at 31 March	73,055

Accumulating Compensated Absences Adjustment Account

The Accumulating Compensated Absences Adjustment Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31 March 2017. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2015/2016 £		2016/2017 £
91,964	Balance at 1 April	89,022
(91,964)	Settlement or cancellation of accrual made at the end of the preceding year	
89,022	Amounts accrued at the end of the current year	-
(2,942)	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	-
89,022	Balance at 31 March	89,022

25. Cash Flow Statement – Adjustments to Net (Surplus)/Deficit on Provision of Services for Non Cash Movements

The surplus or deficit on the provision of services has been adjusted for the following:

2015/2016 £		2016/2017 £
(1,789,281)	Depreciation	(2,064,350)
(792,465)	Impairment & Downward Revaluations	-
(103,653)	Amortisation	(136,465)
(312,188)	(Increase)/Decrease in Provisions	35,223
3,237,155	(Increase)/Decrease in Creditors	(1,953,830)
(2,119,020)	Increase/(Decrease) in Debtors	(193,461)
(4,383)	Increase/(Decrease) in Inventories	(3,201)
(644,000)	Movement in Pension Liability	(469,000)
(1,026,795)	Carrying Amount of Non Current Assets Sold	(502,969)
(249,000)	Movement in value of Investment Property	(1,372,000)
146,556	Other Non Cash Items Charged to the Surplus or Deficit on the Provision of Services	16,464,086
(3,657,075)	Total	9,804,033

26. Cash Flow Statement – Adjustment for Items that are Investing and Financing Activities

The surplus or deficit on the provision of services has been adjusted for the following items that are investing and financing activities:

2015/2016 £		2016/2017 £
1,219,045	Reversal of Capital Receipts to Investing Activities	625,528
-	Reversal of Other Receipts to Financing Activities	-
(734,828)	Reversal of Other Payments to Financing Activities	(180,031)
(7,739)	Reversal of Finance Lease Repayments to Financing Activities	(8,206)
476,478	Total	437,291

27. Cash Flow Statement – Investing Activities

2015/2016 £		2016/2017 £
2,711,335	Purchase of property, plant and equipment, investment property and intangible assets	2,511,663
(1,219,045)	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(625,528)
(135,113)	Other receipts from investing activities	(217,691)
1,357,178	Net cash (inflow)/outflow from investing activities	1,668,444

28. Cash Flow Statement – Financing Activities

2015/2016 £		2016/2017 £
7,739	Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	8,206
1,045,647	Repayments of short- and long-term borrowing	1,072,176
734,828	Other payments for financing activities	180,031
1,788,214	Net cash (inflow)/outflow from financing activities	1,260,413

29. Members' Allowances

The total of members' allowances and expenses paid in the year was £132,631 (£133,722 in 2015/2016).

30. Officers' Remuneration

The remuneration paid to the Council's senior employees is as follows:

2016/2017	Salary, Fees and Allowances	Bonuses	Expenses Allowances	Compensation for Loss of Office	Pension Contribution	Total
	£	£	£	£	£	£
Chief Executive	95,809	-	633	-	13,948	110,390
Corporate Director – Resources	70,302	-	403	-	10,194	80,899
Corporate Director – Operations	70,302	-	849	-	10,194	81,345
Corporate Director – Strategy	70,302	-	105	-	10,194	80,601

2015/2016	Salary, Fees and Allowances	Bonuses	Expenses Allowances	Compensation for Loss of Office	Pension Contribution	Total
	£	£	£	£	£	£
Managing Director	95,325	-	575	-	13,822	109,722
Corporate Director – Resources	69,606	-	222	-	10,096	79,924
Corporate Director – Operations	69,606	-	1,021	-	10,100	80,727
Corporate Director – Strategy	69,606	-	120	-	10,093	79,819

There are no other employees whose remuneration, excluding pension contributions was £50,000 or more in 2016/2017.

The numbers of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below:

(a)	(b)		(c)		(d)		(e)	
	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band [(b)+(c)]		Total cost of exit packages in each band	
	2015/16	2016/17	2015/16	2016/17	2015/16	2016/17	2015/16	2016/17
Exit Package cost band (including Special Payments)								
£0-£20,000	-		-	2	-	2	-	7,478
£20,001 - £40,000	-	-	-	-	-	-	-	-
Total cost included in bandings							-	7,478
Add: Amounts provided for in CIES not incl. in bandings	-	-		-		-	-	-
Total cost included in CIES							-	7,478

The total cost of £7,478 in the table above is the amount included for exit packages that have been charged to the Council's Comprehensive Income and Expenditure Statement in the current year.

31. External Audit Costs

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors:

	2015/2016 £	2016/2017 £
Fees payable to Ernst & Young with regard to external audit services carried out by the appointed auditor for the year	38,616	38,616
Fees payable to Ernst & Young for the certification of grant claims and returns for the year	13,068	11,057
Total	51,684	49,673

32. Grant Income

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2016/2017:

	2015/2016 £	2016/2017 £
Credited to Taxation and Non Specific Grant Income		
National Non Domestic Rates Pool	(627,172)	(881,871)
Revenue Support Grant	(1,153,339)	(1,002,942)
Other Capital Grants	-	-
Total	(1,780,511)	(1,884,813)
Credited to Net Cost of Services		
Disabled Facilities Grant	(118,889)	(217,477)
New Homes Bonus (includes Top Slice)	(756,095)	(868,267)
Business Rates Retention – Autumn Statement	(150,546)	(39,181)
DWP : Ferris	-	(24,158)
DWP: Universal Credits	-	(32,056)
DWP: Benefit Cap	-	(4,762)
New Burdens – Council Tax Reform	(12,141)	-
DWP – Welfare Reform	(41,546)	(28,475)
DCLG – New Burdens – Property Searches	(36,175)	-
DCLG – Transparency Grant	(8,103)	(8,103)
Individual Electoral Registration	(21,099)	(14,232)
DCLG – Council Tax Discount for Family Annexes	-	(5,450)
DWP – Various small grants	-	(3,168)
Department of Work and Pensions – Housing Benefits	(8,862,949)	(8,223,744)
Department of Work and Pensions – Discretionary Housing Payment	(97,881)	(120,822)
Cost of Collection Administration Grant	(35,880)	(38,667)
Community Safety	(15,115)	(10,000)
Small Business Rate Relief Grant	(309,942)	(433,857)
DCLG – Self Build Housing Register	-	(5,850)
DCLG – Community Housing Fund	-	(493,730)
DCLG – Self & Custom Build Housing	-	(15,000)
DCLG – New Burdens: Brownfield Register & PIP LA	-	(14,645)
DCLG – Various small grants	(9,640)	(5,249)
Total	(10,476,001)	(10,606,893)

The Council has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the giver. The balances at the year-end are as follows:

31 March 2016	Capital Grants Receipts in Advance	31 March 2017
£		£
(11,638)	Individual Electoral Registration	(11,638)
(3,927)	Disabled Facilities Grant	(45,168)
(5,694)	Redeemed Home Improvement Loan	(10,678)
(12,161)	Town Team Funding	(8,215)
(33,420)	Total	(75,699)

33. Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government

Central government has significant influence over the general operations of the Council – it is responsible for providing the statutory framework, within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). There are no significant outstanding grant receipts at 31 March 2017.

North Yorkshire Pension Fund

Details of the Council's payment of employer's superannuation contribution to the pension fund are disclosed in Note 37 to the Statement of Accounts. Details of the Pension Fund creditors can also be found in Note 37 to the Statement of Accounts.

Veritau North Yorkshire Limited

The Council owned a 12.5% share in Veritau North Yorkshire Limited at the start of the current year. The Council's Section 151 Officer is chair of the company's board of directors. The principal activities of the company are the provision of internal audit, counter fraud and information governance services to the authorities within North Yorkshire. In 2016/17 Richmondshire District Council paid the company £48,820 for these services in year. There was nothing outstanding at the year end.

Members

Members of the Council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2016/2017 is shown in Note 29. A number of Members are also County Council Members and will also be involved in decision making at that level. During 2016/2017 the following material transactions took place with organisations in which Members have an interest.

Councillor	Organisation	Relationship	Expenditure in year 2016/2017	Transaction
Cllr Blackie	Upper Wensleydale Community Association	Chairman	£14,975	Service Level Agreement
Cllr Curran	Friends of Garget Walker House	Treasurer	£3,395	Grant Funding – Community Ops Fund: Dementia Friendly Garden
Cllr Duff	Richmondshire Community & Voluntary Action	Trustee	£6,480	Lower School Consultancy Fee
Cllr Grant	Richmondshire Community & Voluntary Action	Trustee	£6,480	Lower School Consultancy Fee

In 2015/2016 there were four material transactions, as shown below:

Councillor	Organisation	Relationship	Expenditure in year 2015/2016	Transaction
Cllr Beal	Reeth Memorial Hall	Treasurer	£18,928	Grant Funding – Community Ops Fund Phase 2 – refurb and Area Partnership grants
Cllr Blackie	Upper Wensleydale Community Association	Chairman	£14,796	Service Level Agreement
Cllr Blackie	Upper Wensleydale Community Association	Chairman	£605	Grant Funding – Community Ops Fund: Area Partnership and 2 nd claim for IT suite

In 2016/2017 and 2015/2016 there were no outstanding balances.

Mercury Housing Company Limited

The Council holds long term investments in the Mercury Housing Company Limited, which is a local authority as follows:

	Shareholding	
	%	£'000
Mercury Housing Company Ltd	100.00	-

This company was established on 9 January 2015, with ownership by shares. The company is currently dormant, having had no trading activities since its creation. As a result the Council has not prepared Consolidated Accounts to include The Mercury House Company limited.

34. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

	2015/2016 Total £	HRA £	2016/2017 GF £	Total £
Opening Capital Financing Requirement	25,533,880	21,179,324	3,243,398	24,422,722
Capital Investment				
Property, Plant and Equipment	2,551,776	1,785,851	505,600	2,291,451
Investment Properties	-	-	27,227	27,227
Intangible Assets	159,559	49,590	143,393	192,983
Revenue Expenditure Funded from Capital under Statute	118,683	-	171,251	171,251
Finance Lease Transactions	-	-	-	-
Sources of Finance				
Capital Receipts	(657,745)	-	(253,662)	(253,662)
Government grants and other contributions	(114,963)	-	(171,251)	(171,251)
Sums set aside from Revenue	(929,615)	(953,660)	-	(953,660)
Direct revenue contributions	(483,830)	(325,442)	(422,559)	(748,001)
Major Repairs Allowance	(1,573,480)	(1,510,000)	-	(1,510,000)
Minimum Revenue Provision	(173,909)	-	(173,919)	(173,919)
Additional Revenue Provision	(7,634)	-	(7,735)	(7,735)
Closing Capital Financing Requirement	24,422,722	20,225,663	3,061,743	23,287,406
Explanation of movements in year				
Provision for Repayment of Debt	(1,111,158)	(953,661)	(181,655)	(1,135,316)
Assets acquired under finance leases	-	-	-	-
Increase/(decrease) in Capital Financing Requirement	(1,111,158)	(953,661)	(181,655)	(1,135,316)

35. Leases

Council as Lessee

Operating Leases

The Council has a number of vehicles it leases that are nearing the end of their lives. The Council also leases Leyburn Community Office on a short term lease which has been accounted for as Operating Leases.

The future minimum lease payments due under non-cancellable leases in future years are:

2015/2016 £		2016/2017 £
162,054	Not later than one year	142,632
10,007	Later than one year and not later than five years	1,575
-	Later than five years	-
172,061		144,207

The expenditure charged to the Comprehensive Income and Expenditure Statement during the year in relation to these leases was:

2015/2016 £		2016/2017 £
385,054	Minimum lease payments	231,361
-	Contingent rents	-
385,054		231,631

Council as Lessor

Operating Leases

The Council has also granted a 20 year Operating lease to Richmondshire Leisure Trust for Richmond Swimming Pool, for an annual rent of one peppercorn, if requested. This lease will enable Richmondshire Leisure Trust to provide leisure facilities to the district. The Swimming Pool has been revalued as a result of the letting lease, and the carrying value of the asset has been adjusted in the balance sheet. No other entries have taken place in the accounts.

The net value of the swimming pool as at 31 March 2017 is £1,633,544, with a Gross cost of £629,526 and accumulated depreciation of £157,331.

36. Impairment Losses

The Code of Practice on Local Authority Accounting requires disclosure by class of assets of the amounts for impairment losses and impairment reversals charged to the Surplus or Deficit on the Provision of Services and to Other Comprehensive Income and Expenditure. These disclosures are consolidated in Notes 14 and 16 reconciling the movement over the year in the Property, Plant and Equipment and Intangible Asset balances.

37. Defined Benefit Pension Schemes

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the costs of post employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in the Local Government Pension Scheme, which is administered by North Yorkshire County Council's Pension Fund. This is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets.

Arrangements for the award of discretionary post-retirement benefits upon early retirement – this is an unfunded benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pension liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

The North Yorkshire County Council's pension scheme is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the pensions committee of North Yorkshire County Council. Policy is determined in accordance with the Pension Fund Regulations. The investment managers of the fund are appointed by the committee and consist of the Strategic Director - Resources of North Yorkshire County Council and AON Hewitt Ltd.

The principal risks to the council of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund and Housing Revenue Account the amounts required by statute as described in the accounting policies note.

Transactions Relating to Post-employment Benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are actually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post employment/retirement benefits is reversed out of the General Fund via the Movement in the Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year.

	Local Government Pension Scheme	
	2015/16 £000	2016/17 £000
Comprehensive Income and Expenditure Statement		
Cost of Services:		
<i>Service Cost Comprising:</i>		
• Current service cost	1,117	1,007
• Past service costs	-	-
• (Gain)/loss from settlements	-	-
• Curtailments	-	-
• Administration expenses	17	17
<i>Financing and Investment Income and Expenditure</i>		
• Net interest expense	558	525
Total Post-employment Benefit Charged to the Surplus or Deficit on the Provision of Services	1,692	1,549
Other Post-employment Benefit Charged to the Comprehensive Income and Expenditure Statement:		
<i>Remeasurement of the net defined benefit liability comprising:</i>		
• Return on plan assets (excluding the amount included in the net interest expense)	1,242	(5,081)
• Actuarial (gains) and losses arising on changes in liability experience	(670)	(5,963)
• Actuarial (gains) and losses arising on changes in financial assumptions	(3,184)	10,729
• Other (gains) and losses	-	-
Total Post Employment Benefit Charged to the Comprehensive Income and Expenditure Statement	(2,612)	(315)
Movement in Reserves Statement		
• Reversal of net charges made to the Surplus or Deficit for the Provision of Services for post employment benefits in accordance with the Code	(1,692)	(1,549)
Actual amount charged against the General Fund Balance for pensions in the year:		
• Employer's contributions payable to the scheme	1,048	1,086
• Retirement benefits payable to pensioners		

The cumulative amount of actuarial gains and losses recognised in Other Comprehensive Income and Expenditure in the actuarial gains and losses on pensions assets and liabilities line was at 31 March 2017 a loss of £157,000 and at 31 March 2016 a gain of £2,612,000.

Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Council's obligation in respect of its defined benefit plans as is follows:

	Local Government Pension Scheme	
	2015/16 £000	2016/17 £000
Present value of the defined benefit obligation	56,323	62,661
Fair value of plan assets	(40,352)	(46,064)
Net Liability arising from defined benefit obligation	15,971	16,597

Reconciliation of the Movements in the Fair Value of the Scheme (Plan) Assets

	Local Government Pension Scheme	
	2015/16 £000	2016/17 £000
Opening fair value of scheme assets	40,573	40,352
Interest income	1,294	1,360
Remeasurement gain/(loss):		
• The return on plan assets, excluding the amount included in the net interest expense	(1,242)	5,081
• Other	-	-
The effect of changes in foreign exchange rates	-	-
Contributions from employer	1,048	1,086
Contributions from employees into the scheme	278	281
Benefits Paid	(1,599)	(2,096)
Closing fair value of scheme assets	40,352	46,064

Reconciliation of Present Value of the Scheme Liabilities (Defined Benefit Obligation)

	Local Government Pension Scheme	
	2015/16 £000	2016/17 £000
Opening balance at 1 April	58,512	56,323
Current service cost	1,117	1,007
Interest cost	1,852	1,885
Contributions from scheme participants	278	281
Remeasurement (gains) and losses:		
• Actuarial gains/losses arising from changes in demographic assumptions	-	472
• Actuarial gains/losses arising from changes in financial assumptions	(3,184)	10,729
• Other	(653)	(5,946)
Past service cost	-	6
(Gains) / Losses on curtailment	-	-
Liabilities assumed on entity combinations	-	-
Benefits paid	(1,599)	(2,096)
Liabilities extinguished on settlements	-	-
Closing balance at 31 March	56,323	62,661

Local Government Pension Scheme assets comprised:

	Fair value of scheme assets (a)	
	2015/16 £000	2016/17 £000
Cash and cash equivalents	323	46
Bonds:		
<i>By sector</i>		
• Corporate	2,179	1,428
• Government	5,690	6,541
Sub-total bonds	7,869	7,969
Property:		
<i>By type</i>		
• Retail	-	-
• Commercial	2,946	3,915
• Residential	-	-
Sub-total property	2,946	3,915
Private equity:		
• UK	25,099	30,126
• Overseas	-	-
Sub-total private equity	25,099	30,126
Other investment funds:		
• Infrastructure	-	-
• Property	4,116	4,008
Sub-total other investment funds	4,116	4,008
Derivatives		
• Forward foreign exchange contracts	-	-
Total Assets	40,353	46,064

(a) All scheme assets have quoted prices in active markets.

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc.

Both the Local Government Pension Scheme and discretionary benefits liabilities have been estimated by AON Hewitt Ltd, an independent firm of actuaries, estimates for the County Council Fund being based on the latest full valuation of the scheme as at 1 April 2017.

The significant assumptions used by the actuaries have been:

	Local Government Pension Scheme	
	2015/16	2016/17
Mortality assumptions:		
Longevity at 65 for current pensioners:		
• Men	23.3 yrs	22.8 yrs
• Women	25.8 yrs	26.3 yrs
Longevity at 65 for future pensioners:		
• Men	25.6 yrs	25.0 yrs
• Women	28.1 yrs	28.6 yrs
Rate of inflation	1.8%	2.0%
Rate of increase in salaries	3.3%	3.3%
Rate of increase in pensions	1.8%	2.0%
Rate for discounting scheme liabilities	3.4%	2.6%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be inter-related. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	Impact on the Defined Benefit Obligation in the Scheme £000
Longevity (increase or decrease in 1 year)	1,813
Rate of inflation (increase or decrease by 0.1%)	903
Rate of increase in salaries (increase or decrease by 0.1%)	214
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	1,136

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The County Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 27 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on the 31 March 2019.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2015 (or service after 31 March 2016 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made within a common framework to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

The Council anticipated to pay £1,136,000 expected contributions to the scheme in 2016/2017.

The weighted average duration of the defined benefit obligation for scheme members is 18 years, 2016/2015 (18 years 2015/2016).

38. Contingent Liabilities

At 31 March 2017, the Council had one material contingent liability:

- During 2005/2006 a number of staff were TUPE (*) transferred from Richmondshire District Council to Richmondshire Leisure Trust. Part of the agreement was that the pension deficit relating to these staff was also transferred to Richmondshire Leisure Trust. Richmondshire Leisure Trust were admitted to the North Yorkshire Pension Fund provided that Richmondshire District Council acted as guarantor with regard to the pension liability. In the event of Richmondshire Leisure Trust ceasing to exist, any liability on the Pension Fund relating to Richmondshire Leisure Trust staff will be transferred back to Richmondshire District Council. As at 31 March 2017 this liability is estimated to be in the region of £590,000 (£597,000 as at 31 March 2016).

In the event of the liability being transferred back to Richmondshire District Council, there would be no requirement for an immediate payment of this amount. The liability would need to be recovered over a number of years by increasing the employer's contributions to the Pension Fund.

(* TUPE stands for Transfer Undertakings Protection of Employment)

39. Nature and Extent of Risks Arising from Financial Instruments

The Council's activities expose it to a variety of financial risks:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Council
- Liquidity risk – the possibility that the Council might not have the funds available to meet its commitments to make payments
- Interest rate risk – the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates
- Market risk - the risk of fluctuations in the principal value of the Council's investments.

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by a central treasury management team, under policies approved by the Council. The Council provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash.

Credit risk

Credit risk arises from deposits with banks and other financial institutions. The Council annually approves a Treasury Management Strategy which, for 2016/17, determined that deposits with an

individual institution would be limited to 50% of total investments or £3.5m per counterparty whichever is the lower. This limits the amount of credit risk exposure.

In addition the Council uses the creditworthiness service provided by Capita Treasury Services. This service has been progressively enhanced and now uses a sophisticated modelling approach with credit ratings from all three rating agencies - Fitch, Moodys and Standard and Poors, forming the core element. However, it does not rely solely on the current credit ratings of counterparties but also uses the following as overlays: -

- credit watches and credit outlooks from credit rating agencies
- Credit Default Swap (CDS) spreads to give early warning of likely changes in credit ratings
- sovereign ratings to select counterparties from only the most creditworthy countries

This modelling approach combines credit ratings, credit watches, credit outlooks and CDS spreads in a weighted scoring system for which the end product is a series of bands which indicate the relative creditworthiness of counterparties. These bands, in turn, are used by the Council to determine the duration for investments and are therefore referred to as “durational bands”.

The Council’s maximum exposure to credit risk in relation to its investments in banks and building societies cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all the Council’s deposits, but there was no evidence at the 31 March 2017 that this was likely to crystallise. Deposit protection arrangements will limit any losses that might arise to a minimum.

The Council does not generally allow credit for customers, such that £669,658 of the £816,771 balance is past its due date for payment. The past due but not impaired amount can be analysed by age as follows:

	31 March 2016	31 March 2017
	£	£
Less than one month	249,384	164,990
One to two months	164,594	66,316
Two to three months	63,289	44,277
More than three months	492,686	394,075
	969,953	669,658

Liquidity Risk

The Council has a comprehensive cashflow management process that seeks to ensure that cash is available as needed. If unexpected movements happen, the Council has ready access to borrowing from the Public Works Loans Board. There is no significant risk that it will be unable to raise finance to meet it’s commitments under financial instruments. Instead, the risk is that the Council will be bound to replenish a significant proportion of its borrowing at a time of unfavourable interest rates.

The strategy is to ensure that not more than 50% of loans are due to mature within any rolling three year period through a combination of careful planning of new loans taken out and (where it is economic to do so) making early repayments. The maturity analysis of financial liabilities is as follows:

	2015/2016	2016/2017
	£	£
Less than one year	1,072,176	1,099,380
Between one and two years	1,099,380	1,127,277
Between two and five years	3,468,380	3,556,403
More than five years	14,968,150	13,752,850
	20,608,086	19,535,910

All trade and other payables are due to be paid in less than one year.

Market Risk

Interest rate risk

The Council is exposed to significant risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council. For instance, a rise in interest rates would have the following effects:

- Borrowings at variable rates – the interest expense charged to the Surplus or Deficit on the Provision of Services will rise
- Borrowings at fixed rates – the fair value of the liabilities will fall
- Investments at variable rates – the interest income credited to the Surplus or Deficit on the Provision of Services will rise
- Investments at fixed rates – the fair value of the assets will fall

Borrowings are not carried at a fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and will affect the General Fund Balance. Movements in the fair value of fixed rate investments will be reflected in Other Comprehensive Income and Expenditure.

During periods of falling interest rates, and where economic circumstances make it favourable, fixed rate loans will be repaid early to limit exposure to losses. The risk of loss is ameliorated by the fact that a proportion of government grant payable on financing costs will normally move with prevailing interest rates or the Council's cost of borrowing and provide compensation for a proportion of higher costs.

The treasury management team has an active strategy for assessing interest rate exposure that feeds into the setting of the annual budget and which is used to update the budget quarterly during the year. This allows any adverse changes to be accommodated. The analysis will also advise whether the new borrowing taken out is fixed or variable.

HOUSING REVENUE ACCOUNT (HRA) INCOME AND EXPENDITURE STATEMENT

The HRA Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis of which rents are raised, is shown in the Movement on the HRA Statement

2015/2016 £		2016/2017 £	£
	Expenditure		
1,892,792	Repairs and maintenance	1,803,946

(6,715,759)		(6,674,873)

2. Rent Arrears

2015/2016 £	Arrears as at 31 March	2016/2017 £
262,302	Current Tenant Arrears	251,372
98,987	Former Tenant Arrears	109,703
361,288		361,075

The gross arrears outstanding of rents and service charges are shown above.

During the year 2016/2017 all rent arrears as a proportion of gross rent and charges due was 5.47% (5.41% in 2015/2016).

The provision for Bad Debts as at 31st March 2017 was £290,650 (£271,554 as at 31st March 2016).

An amount of £37,867 was written off during the year (£32,290 in 2015/2016).

3. Housing Stock & Valuation

A summary of the Council's housing stock is as follows:-

Stock as at 31 March 2016	Sales / Demolitions in 2015/2016		Stock as at 31 March 2017	Sales / Demolitions in 2016/2017
685	6	DWELLINGS	677	8
365	18	Houses	365	-
402	-	Flats	402	-
88	-	Bungalows	85	3
		Other		
1,540	24	Total Dwellings	1,529	11
		OTHER HRA		
361	12	Garages	361	-
4	-	Shops	4	-
2	-	Land (sites)	2	-
367	12		367	-
£'000		ASSET VALUATION	£'000	
50,267		Housing Stock	66,344	
551		Garages	516	
1		Community Assets	1	
101		Other HRA	123	
50,920			66,984	

2015/2016 £	Balance Sheet Values	2016/2017 £
652,250	Land and Property	638,477
50,266,500	Houses	66,344,179
1,334	Other Community Assets	1,334
50,920,084		66,983,990
50,920,084	Operational	66,983,990
-	Non-operational	-
50,920,084		66,983,990

In 2016/2017 3 bedsits classified as long-term voids were converted into communal areas at Noels Court. Shown under sales/demolitions table as no longer rentable and classified as communal.

In accordance with DCLG Guidance, a full revaluation of the housing stock was undertaken during 2016/2017. This full revaluation is carried out every 5 years with desk top reviews being carried out annually in between.

4. Existing Use Value – Vacant Possession (EUV-VP)

The vacant possession value as at 1 April 2017 was £161.815m (£162.150m as at 1 April 2016). The vacant possession value is an opinion of the best sale price that could have been obtained for the property on the date of the valuation. The balance sheet valuation contains an adjustment to reflect the fact that the properties involved have sitting tenants subject to sub-market rents and statutory rights, including the right to buy. This adjustment has been an element of the valuation process for a number of years and was reviewed by DCLG and new guidance was issued in November 2016 setting a new adjustment factor for application in the 2016/17 accounts. This adjustment factor of 41% (31% in 2015/2016) measures the difference between market and sub-market rents. The adjusted valuation is called “Existing Use Value – Social Housing” (EUV-SH). The difference between the vacant possession value and the balance sheet value therefore shows the economic cost to the Government of providing council housing at less than open market value. The impact of the increase in the adjustment factor from 31% during 2015/16 and 41% during 2016/17 is to significantly increase the balance sheet valuation of HRA dwellings.

5. Depreciation & Impairment

The following amounts were charged to the account in respect of depreciation.

2015/2016 £		2016/2017 £
1,473,480	Houses	1,510,000
66,833	Other	49,222
1,540,313	Total	1,559,222
1,540,313	Operational	1,559,222
-	Non-operational	-
1,540,313	Total	1,559,222

The amount charged to the HRA as depreciation on dwellings is the annual amount calculated as for the Major Repairs Allowance, and represents the estimated annual cost of maintaining the dwelling stock in decent condition, over a 30 year life. Non dwelling assets are depreciated over 20 years

Housing Revenue Account Impairments charged to the service revenue accounts in the Comprehensive Income and Expenditure Statement.

2015/2016 £		2016/2017 £
-	Land	-
157,770	Houses	68,990
-	Other	-
157,770	Total	68,990

Impairment occurs because something has happened either to the fixed assets, or to the economic environment in which they are used. A review for impairment of a fixed asset whether carried at historical cost or valuation should be carried out if events or changes in circumstances indicate that the carrying amount of the fixed asset may not be recoverable.

6. Capital Charges

2015/2016 £		2016/2017 £
535,014	Interest Payable	508,397
535,014	Capital Asset Charge	508,397

The interest paid on the use of internal and external loans is included in the Housing Revenue Account Operating Account, ensuring that the HRA bears its share of the actual cost of interest paid.

The consolidated rate of interest charged in year was 1.41% (1.51% in 2015/2016).

In addition to this interest charged on historic debt, the Council pays interest on a loan from the PWLB as part of the HRA Self financing arrangements that were put in place on the 1st April 2012. The rate of interest paid on this debt is 2.57% and is fixed over the 20 year period of the loan.

7. IAS 19 Retirement Benefits

2015/2016 £		2016/2017 £
111,702 (199,943)	Direct service costs chargeable to the HRA Less Current Service Costs (IAS19)	119,057 (190,323)
(88,241)		(71,266)
331,508 (231,626) (11,641)	Interest Cost Expected Return on Assets Net appropriation reversal	356,265 (257,040) (27,959)
88,241		71,266

It is now a requirement to show the costs of pensions and any contributions to/from the Pensions Reserve. The HRA was charged with the employer's superannuation costs direct to each service. The net IAS 19 based costs are transferred out of the appropriation section of the Housing Revenue Account.

8. Major Repairs Reserve

2015/2016 £		2016/2017 £
365,280	Opening Balance 1 April 2016	332,114
1,540,313	Transfer from CFA (equivalent to HRA depreciation)	1,559,222
-	Transfer to HRA – Depreciation on Non-Dwellings	-
(1,573,840)	Financing of Capital Expenditure in Year – Housing	(1,510,000)
331,753	Closing Balance 31 March 2017	381,336

9. Housing Capital Receipts

Total Usable 2015/2016 £		Receipts 2016/2017		
		Total £	Pooled £	Usable £
185,403	House Sales	499,900	245,423	254,477
-	Discount Repaid	-	-	-
-	Mortgage Repaid	-	-	-
-	Sale of Land	-	-	-
185,403	Total	499,900	245,423	254,477

The total value of usable capital receipts is relatively low, compared to the receipt. Normally, 75% of the net capital receipt has to be pooled and paid to central government.

8 dwellings were sold under Right to Buy in 2016/2017 (7 dwellings were sold in 2015/2016).

10. Capital Expenditure & Sources of Finance

2015/2016 £		2016/2017 £
-	Capital Expenditure	-
2,037,105	Land and Infrastructure	1,738,120
-	Houses	-
174,771	Other – Self Financing Arrangements	97,322
2,211,876	Other	1,835,442
	Total	
-	Sources of Finance	-
1,573,840	Loans (Internal)	1,510,000
154,206	Major Repairs Reserve	-
-	Capital Receipts	-
483,830	Reserves	-
	Revenue Contributions	325,442
2,211,876	Total	1,835,442

On the 29th March 2012 the Government required all Authorities to “buy out” of the subsidy system by paying over an amount that they calculated to reflect future subsidy payments. Authorities were required to borrow funds to finance this unique arrangement. A 20 year fixed term loan was arranged with the PWLB and annual repayments commenced from 2012/2013.

COLLECTION FUND

The Collection Fund is an agents statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.

2015/2016			2016/2017

NOTES TO THE COLLECTION FUND ACCOUNT

These accounts represent the transactions of the Collection Fund which is a statutory fund prepared on an accruals basis.

1. Council Tax

The Council Tax is a property based tax with properties allocated to valuation bands A to H. The tax base for Richmondshire was calculated at 19,097.25 for 2016/2017 being the total number of properties converted to an equivalent number of band D dwellings.

The average Council Tax for Richmondshire at Band D was £1,628.14 made up as follows:

2015/2016 £		2016/2017 £
201.40	Richmondshire District Council	201.40
1,099.98	North Yorkshire County Council	1,143.86
212.77	North Yorkshire Police Authority	217.00
64.59	North Yorkshire Fire and Rescue	65.88
1,578.74	TOTAL	1,628.14

2. Business Rates (BR)

Business Rates are collected locally on the basis of a nationally determined rate in the pound of 49.7p for 2016/2017 for all Businesses not entitled to Small Business Rate Relief and 48.4p for those that are entitled to the relief, (49.3p and 48.0p in 2015/2016), charged on the rateable value of the property. Small Business Rate Relief was introduced by Central Government from 1 April 2005 and broadly gives assistance to those ratepayers who pay rates on 1 property only, up to a maximum of £17,999 rateable value.

The BR income after reliefs and provisions of £13,366,889 for 2016/2017 was based on an aggregate rateable value for the Council's area of £33,005,385 for the year (£32,640,717 in 2015/2016).

A Glossary of Terms

Accruals:

The concept that income and expenditure are recognised as they are earned or incurred, not as money is received or paid.

Amortised Premiums/Discounts:

The amounts due/receivable following the premature repayments of loan debt.

Appropriations:

Amounts transferred to or from revenue or capital reserves in the form of amounts set aside from revenue to provide for the repayment of external loans and finance capital expenditure, in accordance with statutory requirements, or to provide for the future replacement of fixed assets.

Asset:

An item owned by the Council, which has a monetary value. Assets are defined as current or fixed:

- Current assets will be consumed or cease to have value within the next financial year, e.g. stocks and debtors
- Fixed assets provide benefits to the Council and to services it provides for a period of more than one year, for example, land, buildings, vehicles and equipment.

Balance Sheet:

A statement of the recorded assets, liabilities and other balances at the end of an accounting period.

Capital Adjustment Account:

A reserve that reflects the difference between the cost of fixed assets consumed and the capital financing set aside to pay for them. This account replaces the FARA (Fixed Asset Restatement Account) and the Capital Financing Account.

Capital Charge:

A charge to service revenue accounts in the Comprehensive Income and Expenditure Statement to reflect the cost of fixed assets used in the provision of services.

Capital Expenditure:

Payments made for the purchase or provisions of assets of long term value to the Council e.g. land, buildings, plant and machinery.

Capital Receipts:

The money received from the sale of assets.

CIPFA:

The Chartered Institute of Public Finance and Accountancy. This is the professional institute governing how public money is used and how it has to be reported.

Collection Fund:

A fund administered by the Billing Authority (District Councils) into which is paid Council Tax it collects together with the payment it receives for National Non-Domestic (Business) Rates (NNDR) collected from business ratepayers. Precepts are paid from the fund to precepting authorities including the billing authority.

Community Assets:

Assets that the Council intends to hold in perpetuity, that have no determinable useful life, and that may have restrictions in their disposal. Examples of community assets are parks and historic buildings.

Comprehensive Income and Expenditure Account:

A summary of all the resources that the Council has generated, consumed or set-aside in providing services during the year. It is intended to show the true financial position of the Council before allowing for concessions to raise council tax and for the ability to divert expenditure to be met from capital resources.

Contingency:

A condition which exists at the balance sheet date where the outcome will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events.

Contributions to funds:

Contributions made from the General Fund to provide a reserve for a specific use in the future.

Corporate and Democratic Core:

The corporate and democratic core comprises all activities which local authorities engage in specifically because they are elected, multi-purpose authorities. The cost of these activities are thus over and above those which would be incurred by a series of independent, single purpose, nominated bodies managing the same services. There is therefore no logical basis for apportioning these costs to services.

Council Tax:

This is a banded property tax which is levied on domestic properties throughout the District. The banding is based on estimated property values as at 1st April 1991.

Creditors:

Amounts incurred by the Council but not yet paid.

Debtors:

Amounts due to the Council but not yet received.

Defined Benefit Scheme:

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable, and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).

Deferred Capital Receipts:

Amounts due to the Council from the sale of fixed assets that are not receivable immediately on sale e.g. repayments on mortgages granted on the sale of Council houses.

Depreciation:

The amount charged to revenue accounts, as part of the capital charges, to represent the reducing value of fixed assets.

Expected Rate of Return on Pension Assets:

For a funded defined benefit scheme, the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

Fair Value:

Fair value is the amount for which an asset could be exchanged or a liability settled between knowledgeable and willing parties in an arms length transaction.

Fixed Assets:

Tangible assets that yield benefits to the local authority and the services it provides for a period of more than one year.

Financial Reporting Standards:

Publications that set out certain standards of accounting practice which, by law, must be followed by bodies, often including local authorities.

General Fund:

The main account of the Council which records the cost of services.

Government Grants:

A payment by central government towards the cost of local authority services either specifically, such as Disabled Facilities Grants, or generally, in the form of Revenue Support Grants.

Housing Revenue Account (HRA):

A statutory account maintained separately to the General Fund. It includes all revenue expenditure and income relating to the provision, maintenance and administration of council housing and associated areas.

Housing Subsidy:

Housing subsidy is calculated in line with a Government determined series of formulae and can be either a positive (receivable) or negative (payable) amount.

IAS 19:

The accounting standard for employee benefits. The principle underlying this standard is that the cost of providing employee benefits should be recognised in the period in which the benefit is earned by the employee, rather than when it is paid or payable.

Income:

Amounts that the Council receives or expects to receive from any source, including fees, charges, sales and grants.

International Financial Reporting Standards (IFRS):

Accounting reporting Standards, with which local authorities should comply when preparing their accounts so that the accounts are presented fairly.

Investments (Non Pensions Fund):

A long-term investment is an investment that is intended to be held for use on a continuing basis in the activities of the Council. Investments should be so classified only where an intention to hold the investment for the long-term can clearly be demonstrated or where there are restrictions as to the investor's ability to dispose of the investment.

Investments (Pensions Fund):

The investments of the Pensions Fund will be accounted for in the statement of that Fund. However, authorities (other than town, parish and community councils and district councils in Northern Ireland) are also required to disclose, as part of the transitional disclosures relating to retirement benefits, the attributable share of pension scheme assets associated with their underlying obligations.

Liability:

A liability is where a council owes payment to an individual or another organisation:

- A current liability is an amount which will be payable or could be called in within the next accounting period, e.g. creditors or cash overdrawn.
- A deferred liability is an amount which, by arrangement is payable beyond the next year at some point in the future, or to be paid off by an annual sum over a period of time.

Major Repairs Allowance:

This allowance is part of the overall housing subsidy and is used to fund the cost of major repairs, component replacements or upgrades to council housing in order to maintain the dwellings in a decent standard.

Minimum Revenue Provision (MRP):

Represents the minimum amount that must be charged to a revenue account in each financial year to repay external debt.

National Non-Domestic Rate (NNDR):

NNDR poundage is set annually by Central Government based on the assessed value of properties used for business purposes and is collected by charging authorities. The proceeds are redistributed by the Government between local authorities based on population.

Non Distributed Costs:

Comprises the following elements excluded from the definition of total cost of a service (as per CIPFA BVACOP); past service costs, settlements, curtailments, costs associated with unused shares of IT facilities and costs of shares of other long term unused but unrealisable assets.

Operational Assets:

Fixed assets held and occupied used or consumed by the local authority in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Precepting Authorities:

Local authorities that cannot levy Council Tax and Non-Domestic Rates directly on the public but have the power to precept. Billing authorities (District Councils) subsequently pass on the requirements of precepting authorities (County Council and Parish Councils) in the total Council Tax levy. The Non-Domestic Rate levy is set by Central Government.

Provision for Credit Liabilities:

This represents the sum set aside for the repayment of debt. This provision is subsumed within the capital financing reserve.

Public Works Loan Board (PWLB):

This is a Central Government Agency that provides loans for one year and above to authorities at interest rates only slightly higher than those at which the Government itself can borrow.

Reserves:

The accumulation of surpluses, deficits and appropriations over past years. Reserves of a revenue nature are available and can be spent or earmarked at the discretion of the Council. Some capital reserves such as the Revaluation Reserve cannot be used to meet current expenditure.

Retirement Benefits:

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment. Retirement benefits do not include termination benefits payable as a result of either (i) an employer's decision to terminate an employee's employment before the normal retirement date or (ii) an employer's decision to accept voluntary redundancy in exchange for those benefits, because these are not given in exchange for services rendered by employees.

Revaluation Reserve:

This is a reserve that contains the revaluation gains recognised since April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Revenue Expenditure:

Recurring expenditure on day to day expenses such as salaries, wages, electricity and telephones.

Revenue Expenditure Funded from Capital Under Statute:

Capital expenditure for which the Council either never had, or no longer holds, a capital asset.

Revenue Support Grant:

Paid by central government to assist in the provision of local government services.

Scheme Liabilities:

The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method to reflect the benefits that the employer is committed to provide for service up to the valuation date.

SerCOP

Service Reporting Code of Practice.

Set-aside Capital Receipts:

The money received from the sale of assets which is required to be set aside to redeem debt or defray future borrowing.

Stocks:

Items of raw materials and stores a council has produced to use on a continuing basis and which it has not yet used. Examples are consumable stores, raw materials and components purchased for incorporation into products for sale.

TUPE:

Transfer of Undertakings – Protection of Employment.

Work in progress:

The cost of work done on uncompleted projects at the balance sheet date, which should be accounted for.

ANNUAL GOVERNANCE STATEMENT 2016-17

1.0 Scope of Responsibility

- 1.1 Richmondshire District Council ('the Council') is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. The Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.
- 1.2 In discharging this overall responsibility, the Council is also responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, and which includes arrangements for the management of risk.

2.0 The Purpose of the Governance Framework

- 2.1 The governance framework comprises the systems and processes, and culture and values, by which the Authority is directed and controlled and its activities through which it accounts to, engages with, and leads the community. It enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.
- 2.2 The system of internal control is designed to manage risk to a reasonable level rather than eliminate all risk of failure to achieve policies, aims and objectives; it can, therefore, only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Council's policies, aims and objectives to evaluate the likelihood of those risks being realised and the impact should they be realised and to manage them efficiently, effectively and economically.
- 2.3 Following the Local Government Elections, the Council revised its governance framework in 2011. The Council has continued to operate a Leader and committee model.

3.0 Richmondshire District Council's Governance Framework

- 3.1 The key elements of the Council's Governance Framework are as follows:
- 3.1.1 The Council's Strategy is reflected in its Corporate Plan. The current Plan, which was approved by Corporate Board, covers the period 2015-19 and sets out three corporate themes that the Council will work on, which have been identified and developed in consultation with the public and key partners. An annual refresh of the Council plan was undertaken in November 2016.
- 3.1.2 The formal Constitution sets out how the Council operates, how decisions are made, and the procedures that are followed to ensure

that these are lawful, efficient, transparent and accountable to local people. This incorporates the Members' Code of Conduct and a number of other locally agreed codes and protocols.

- 3.1.3 The Council's budget and policy framework is set by the Full Council. The Corporate Board has delegated authority to operate and make decisions within the framework. Some powers are delegated to senior officers.
- 3.1.4 In addition to the Corporate Board, there are two specific regulatory committees for Licensing and Planning. These have independent powers within their legislative frameworks. Each of these acts within defined terms of reference agreed by the Full Council.
- 3.1.5 The Standards Committee was combined with the Audit and Governance Committee in 2012 when the Localism Act 2011 removed the statutory requirement to establish and maintain a Standards Committee. The Council adopted a set of arrangements for dealing with allegations of failure to comply with the Code of Conduct. These arrangements were adopted on 24 July 2012 and came into effect that day.
- 3.1.6 The Corporate Board's decisions are subject to review by the Council's Overview and Scrutiny function, which has the ability to call in and review decisions and also to contribute to the development of policy. There are two statutory scrutiny committees: Policy Review, and Scrutiny. The Audit, Governance and Standards Committee also contributes to scrutiny and overview.
- 3.1.7 The Council has developed and adopted a community engagement strategy with other Councils and Agencies and has established five Area Partnerships, working with them in the development of locally based service delivery options using spare and limited funds.
- 3.1.8 Meetings are open to the public except when exempt or confidential matters are being disclosed. The public has an opportunity to participate in some of the meetings, such as Area Partnership meetings, and can speak at Corporate Board / Council / Planning Committee.
- 3.1.9 A number of areas are delegated to officers for the purposes of decision making; however, limits on the exercise of delegation are laid down in an approved Scheme of Delegation to Officers forming part of the Council's Constitution. Officers can also be called to Scrutiny to give account of decisions made.
- 3.1.10 The Council has adopted a Local Code of Corporate Governance which is reviewed by the Audit, Governance and Standards Committee.
- 3.1.11 The Council also has a separate Whistleblowing Policy and Counter Fraud and Corruption Policies, which were reviewed and approved in February 2015 / September 2016. The low level of cases points

towards a Council that has a strong and effective counter fraud and corruption culture.

3.1.12 The Corporate Director (Strategy and Regulatory) has been appointed as the Council's Monitoring Officer. The appointment of a Monitoring Officer is required in accordance with Section 5 of the Local Government and Housing Act 1989. It is the function of the Monitoring Officer to report to Members upon any contravention of any enactment or rule of law or any maladministration by the Council. The Monitoring Officer also has responsibilities relating to the Members' Code of Conduct.

3.1.13 The Corporate Director (Resources) and S151 Officer is the officer with statutory responsibility for the proper administration of the Council's financial affairs, in accordance with the Section 151 of the Local Government Act 1972. In compliance with the Chartered Institute of Public Finance and Accountancy ('CIPFA')'s "Statement on the Role of the Chief Financial Officer in Local Government", Richmondshire District Council is in full compliance as the Corporate Director (Resources) and S151 Officer, is a member of the Senior Management Team.

3.1.14 Both the statutory officers referred to above have unfettered access to information, to the Chief Executive and to Members of the Council, in order that they can discharge their responsibilities effectively. The functions of these officers and their roles are clearly set out in the Council's Constitution.

3.1.15 The Council's financial management framework comprises the following:

- Financial and Contract Procedure Rules as part of the Council's Constitution
- A four-year Medium Term Financial Strategy which provides the framework for financial planning
- Medium term financial planning is updated annually, to align resources to corporate priorities
- Service and financial planning integrated within the corporate performance management cycle
- Annual budget process involving scrutiny and challenge
- Monthly monitoring by management of revenue and capital budgets – with regular reports to Corporate Board and Senior Management Team
- Embedded arrangements for securing efficiencies and continuous improvement
- Producing a Statement of Accounts annually, compliant with the requirements of local authority accounting practice; and
- Compliance with requirements established by CIPFA.

3.1.16 The Council's performance management framework provides an explicit link between the corporate priorities and personal objectives of Council staff. Performance is reported to Members and the Council's Senior Management Team on a systematic basis with areas of poor

performance investigated. Key features of the performance management framework include the following:

- A regular review of the Corporate Plan to ensure that priorities are reviewed, remain relevant and reflect the aims of the Council
- Service Plans are produced with explicit goals and associated performance targets in order to ensure that achievement of performance is measurable
- The Council's performance review system links personal objectives directly to Service Plans
- Regular quarterly performance and finance reports set out performance on key indicators, actions and budget management; and
- The use of performance briefings which focus on performance management with a smaller group of Members

3.1.17 The Council maintains a professional relationship with Ernst & Young, the body responsible for the external audit of the Council.

3.1.18 Recruitment and selection procedures are based on recognised good practice and all staff posts have a formal job description and person specifications. Services are delivered and managed by staff with the necessary knowledge and expertise with training needs identified via the formal appraisal process contributing to a corporate training plan.

3.1.19 Pay is governed by a Pay Policy considered and approved annually by Council.

3.1.20 The maintenance of systems and processes identifies and manages the key strategic and operational risks to the achievement of the Council's objectives.

3.1.21 Risk management is an integral part of the Council's performance management framework. Corporate and strategic risks are reviewed annually and service risks six monthly, with relevant actions included in Service Plans. The risk management framework includes the following:

- A Risk Management Policy and Strategy has been adopted by the Council and is reviewed annually
- The establishment of a risk register comprising both Corporate and Operational risks for the Council as a whole, assigned to designated officers, with appropriate counter measures and an action plan established for each key risk
- The Audit, Governance and Standards Committee reviews and approves the Risk Management Strategy
- The use of Internal Audit of a risk based approach in the preparation and delivery of the internal audit plan
- The requirement for Council officers to consider risk management issues when submitting reports to the Senior Management Team and Corporate Board for consideration by Members; and

- The Council has recently adopted a corporate project management and business review approach which has been rolled out to managers for use in managing all the Council's projects

3.1.22 Managing information governance and data protection has been prioritised, and a corporate group manages the action plan; this is regularly updated at Audit, Governance and Standards Committee and progress is satisfactory. The Corporate Director (Resources) and S151 Officer is the Senior Information Risk Owner ('SIRO') who sponsors and drives the work forward. The Council is currently starting preparations for the General Data Protection Regulations 2015, due for implementation in 2018.

3.1.23 The maintenance of an adequate and effective system of Internal Audit is a requirement of the Accounts and Audit Regulations. From 1 April 2012, responsibility for the provision of the internal audit service transferred to Veritau North Yorkshire Ltd ('VNY'), part of the Veritau group. It operates in accordance with the statements, standards and guidelines published by CIPFA (particularly the 2006 Code of Practice for Internal Audit in Local Government in the United Kingdom) and the Chartered Institute of Internal Auditors.

3.1.24 Internal Audit examines and evaluates the adequacy of the Council's system of internal controls as a contribution to ensuring that resources are used in an economical, efficient and effective manner. Internal Audit is an independent and objective appraisal function established by the Council for reviewing the system of internal control.

3.1.25 This work is delivered by way of a Strategic Audit Plan developed using a risk based approach. Audit plans are agreed and monitored by the Audit, Governance and Standards Committee with client responsibility assigned to the Corporate Director (Resources) and S151 Officer. Internal Audit is required to give an opinion on the adequacy of the Council's system of internal control each year.

3.1.26 The Council seeks to ensure resources are utilised in the most economic, effective and efficient manner whilst delivering continuous improvement. It aims to achieve this by a variety of means, including the following:

- Service / process transformation and efficiency reviews
- Working with partners; and
- External and Internal Audit feedback

3.1.27 The Audit, Governance and Standards Committee also monitors progress on the Council's approach to Equalities and Diversity to ensure compliance with legislation and best practice.

4.0 Review of Effectiveness

4.1 The Council has a responsibility for conducting, at least on an annual basis, a review of the effectiveness of its governance framework including the system of internal

control. This review takes account of the work of Internal Audit and the Council's Senior Management Team which has a responsibility for the development and maintenance of the governance environment, and also by comments made by external auditors and other review agencies and inspectorates.

4.2 The purpose of a review is to identify and evaluate the key controls in place to manage principal risks. It also requires an evaluation of the assurances received, identifies gaps in controls and assurances, and should result in an action plan to address significant internal control issues.

4.3 The process that has been applied in maintaining and reviewing the effectiveness of the Council's system of internal control includes the following:

4.3.1 The Council's Monitoring Officer oversees the operation of the Constitution to ensure its aims and principles are given full effect.

4.3.2 The arrangements for Overview and Scrutiny have operated throughout the year allowing for the review of key policy areas and providing opportunities for public involvement in specific matters of business. The revised arrangements have operated since May 2011.

4.3.3 The Audit, Governance and Standards Committee met throughout the year and received reports on the progress by Internal Audit against their work plan. The Committee also considered auditable areas where Internal Audit raised any internal control concerns.

4.3.4 The Corporate Director (Resources) and S151 Officer supports the Audit, Governance and Standards Committee and attends all meetings of the Committee.

4.3.5 Internal Audit completes a programme of scheduled audits during the year according to its plan, including follow up audits. There were no specific investigations in the year. All high risk and key financial systems were audited. The overall opinion expressed by Internal Audit stated:

“The overall opinion of the Head of Internal Audit on the framework of governance, risk management and control operating in the Authority is that it provides **Substantial Assurance**. There are no qualifications to this opinion and no reliance was placed on the work of other assurance bodies in reaching that opinion. There are also no significant control weaknesses which, in the opinion of the Head of Internal Audit need to be considered for inclusion in the Annual Governance Statement”.

4.3.6 Internal Audit has not raised any specific overall concerns about internal controls across the Council.

4.3.7 The Council's Risk Register has been maintained under review during the year and updated accordingly. Reports on risk management have been considered by the Senior Management Team and the Audit, Governance and Standards Committee. The Audit, Governance and

Standards Committee has approved a revised Risk Management Strategy.

4.3.8 Monitoring information on key areas of performance has been provided to Senior Management Team and Members on a regular basis with attention focused on those areas that are considered by the Council to be vulnerable.

4.3.9 The Council invited the Local Government Association to undertake a Corporate Peer review to challenge the way the Council operates and identify areas for improvement. The final report was presented to the Corporate Board in June 2017.

4.3.10 The External Auditor's annual letter confirmed that the Council had satisfactory arrangements to secure value for money. In respect of the Council's Statement of Accounts, an unqualified opinion was issued.

4.3.11 The External Auditor did not identify any significant weaknesses in our internal control arrangements.

5.0 Significant Governance Issues

5.1 No system of governance or internal control can provide absolute assurance against material misstatement or loss. This Statement is intended to provide reasonable assurance. In concluding this review of the Council's Governance Framework and Internal Control arrangements, new issues identified have been included in the detailed Action Plan. A detailed plan to address existing weaknesses and ensure continuous improvement in the system of internal control has been produced in response and this will be subject to regular monitoring by the Council's Senior Management Team and the Audit, Governance and Standards Committee, where appropriate. The aim is to address these areas of concern during the 2017/18 financial year.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF RICHMONDSHIRE DISTRICT COUNCIL

Opinion on the Council's financial statements

We have audited the financial statements of Richmondshire District Council for the year ended 31 March 2017 under the Local Audit and Accountability Act 2014. The financial statements comprise the:

- Council's Comprehensive Income and Expenditure Statement;
- Council's Movement in Reserves Statement;
- Council's Balance Sheet;
- Council's Cash Flow Statement;
- Related notes to the accounts 1 to 37;
- Council's Housing Revenue Account and related notes; and
- Council's Collection Fund and related notes.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17.

This report is made solely to the members of Richmondshire District Council, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Council and the Council's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Chief Financial Officer (S151 Officer) and auditor

As explained more fully in the Statement of Responsibilities for the Statement of Accounts, set out on page 8 the Chief Financial Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17, and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Council's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Chief Financial Officer and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Statement of Accounts to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies, we consider the implications for our report.

Opinion on financial statements

In our opinion, the financial statements:

- give a true and fair view of the financial position of Richmondshire District Council as at 31 March 2017 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17.

Opinion on other matters

In our opinion, the information given in the Statement of Accounts for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we report by exception

We report to you if:

- in our opinion the Annual Governance Statement is misleading or inconsistent with other information forthcoming from the audit or our knowledge of the Council;
- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014;
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014;
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

► Conclusion on Richmondshire District Council's arrangements for securing economy, efficiency and effectiveness in the use of resources

► Council's responsibilities

The Council is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

► Auditor's responsibilities

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the National Audit Office ("NAO") requires us to report to you our conclusion relating to proper arrangements.

We report if significant matters have come to our attention which prevent us from concluding that the Council has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Council's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

► Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General ("C&AG") in November 2016, as to whether Richmondshire District Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2017.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, the Richmondshire District Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

► **Conclusion**

On the basis of our work, having regard to the guidance issued by the C&AG in November 2016, we are satisfied that, in all significant respects, Richmondshire District Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2017.

Certificate

We certify that we have completed the audit of the accounts of Richmondshire District Council in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice issued by the National Audit Office.
