#### TO THE APPLICANT.

It is a requirement under Section 57 of the Local Government (Miscellaneous Provisions) Act 1976, to provide a Medical Examination Report to the effect that you are physically fit to drive a Private Hire/Hackney Carriage Vehicle.

This form is to be completed by your own GP or a GP who has access to your medical records and is for the confidential use of the Licensing Authority.

The medical examination report must be submitted to the Licensing Authority with any application for the grant or renewal of a driver licence. The certificate is valid for a period of 3 months from the date of the examination after which either a new medical form or a letter from the GP who carried out the original medical confirming that there has been no change in the medical fitness of the applicant will be required. Once the medical is 3 months old a letter will not be accepted and a new medical will be required.

A Group 2 Medical Report is required every 5 years until the age of 65. From the age of 65 a Group 2 Medical Report is required every year.

This Medical report cannot be issued free of charge as part of the National Health Service. The applicant must pay the medical practitioner's fee, unless other arrangements have been made. The Licensing Authority accepts no liability to pay it.

#### TO THE GENERAL PRACTITIONER

Richmondshire District Council requires all licensed drivers to meet the DVSA Medical Standard Group 2. If you require a copy of this standard please visit the DVSA website or contact Licensing at the above office who can provide a current E copy.

Only complete the Vision Assessment if you are able to fully and accurately complete ALL the questions. If you are unable to do this you must tell the applicant that they will need to arrange to have this part of the assessment completed by an Optician or Optometrist.

Once complete this form should then be returned to the applicant to submit with their application. If necessary, you may return the completed form direct to the Licensing Officer, Richmondshire District Council, Mercury House, Station Road, Richmond, North Yorkshire DL10 4JX

#### **Guidance Notes - Medical Standards For Drivers of Passenger Carrying Vehicles**

Medical standards for drivers of passenger carrying vehicles are higher than those required for Group 1 (car and motorcycle drivers.

- 1. Eyesight Applicants must have, as measured by the 6 metre Snellen chart:
  - A visual acuity of at least 6/7.5 (decimal Snellen equivalent 0.8) in the better eye
  - A visual acuity of at least 6/60 (decimal Snellen equivalent 0.1) in the worse eye This may be achieved with or without glasses or contact lenses.
  - If glasses are worn, the distance spectacle prescription of either lens used must not be of a corrective power greater than plus 8 (+8) dioptres.

**Visual Field -** The horizontal visual field should be a least 160 degrees; the extension should be a least 70 degrees left and right and 30 degrees up and down. No defects should be present within a radius of the central 30m degrees.

**Monocular Vision -** Drivers who have sight in one eye only or their sight in one eye has deteriorated to less than 0.05 (3/60) cannot normally be licensed to drive Group 2 vehicles.

**Uncontrolled Symptoms of Double Vision -** If you have uncontrolled symptoms of double vision, or you have double vision treated with a patch, you will not be allowed to hold a Group 2 licence.

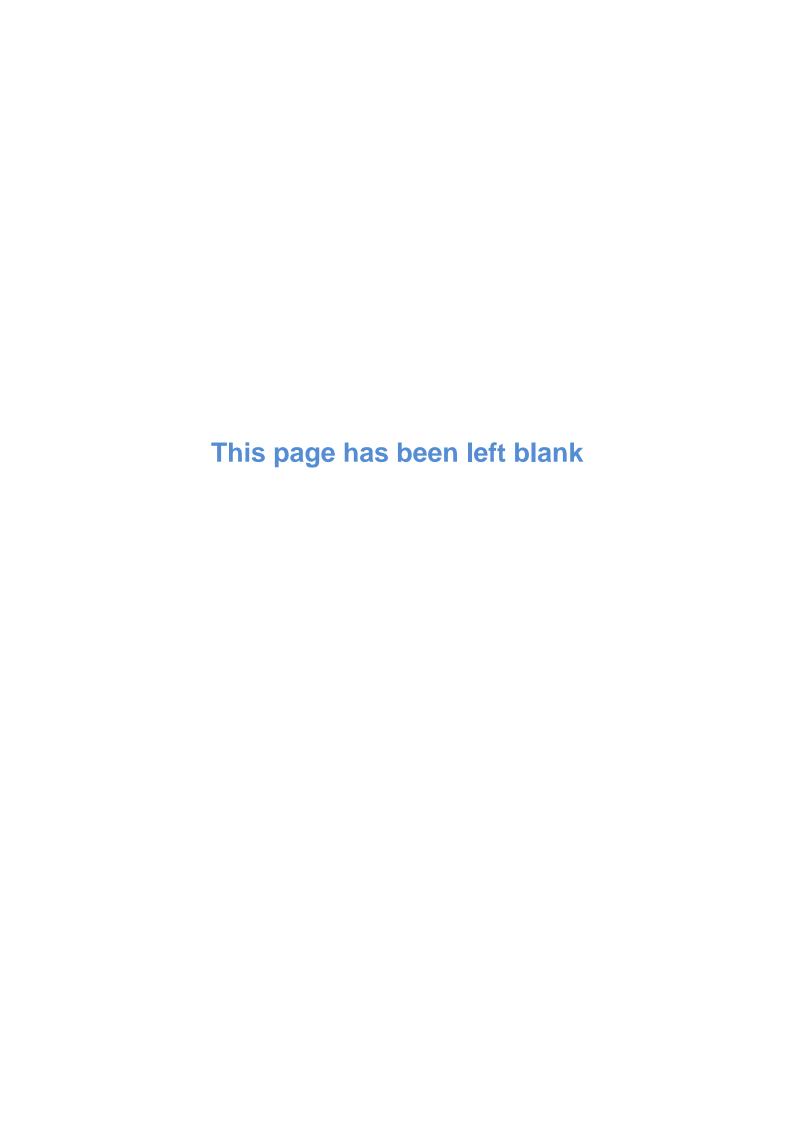

2. **Epilepsy or Liability to Epileptic Attacks -** If you have been diagnosed as having epilepsy, (this includes all events; major, minor and auras), you will need to remain free of seizures without taking anti-epilepsy medication for 10 years. If you have a condition that causes an increased liability to seizures, for example a serious head injury, the risk of you having a seizure must have fallen to no greater than 2% per annum prior to application.

**Isolated Seizure -** If you have had only an isolated seizure, you may be entitled to drive from the date of the seizure, provided that you are able to satisfy the following criteria:

- No relevant structural abnormality has been found in the brain on imaging
- No definite epileptic activity has been found on EEG (record of brain waves)
- You have not been prescribed medication to treat the seizure for at least 5 years since the seizure
- You have the support of your neurologist
- Your risk of a further seizure is considered to be 2% or less per annum (each year)
- 3. **Insulin Treated Diabetes -** If you have insulin treated diabetes you may be eligible to apply for a Group 2 licence. An annual assessment by a hospital consultant specialising in the treatment of diabetes is required and you will have to meet strict criteria for controlling and monitoring your diabetes. This includes having at least 3 months of blood glucose readings available for inspection on a blood glucose meter with a memory function.
- 4. **Other Medical Conditions -** An applicant is likely to be refused a Group 2 licence if they cannot meet the recommended medical guidelines for any of the following:
  - With 3 months of a coronary artery bypass graft (CABG)
  - Angina, heart failure or cardiac arrhythmia which remains uncontrolled
  - Implanted cardiac defibrillator
  - Hypertension where the blood pressure is persistently 180 systolic or more and/or 100 diastolic or more
  - A stroke or transient ischemic attach (TIA) within the last 12 months
  - Unexplained loss of consciousness with liability to recurrence
  - Meniere's disease, or any other sudden and disabling vertigo within the past year, with a liability to recurrence
  - Major brain surgery and/or recent severe head injury with serious continuing after-effects or a likelihood of causing seizures
  - Parkinson's disease, multiple sclerosis or other chronic neurological disorders with symptoms likely to affect safe driving
  - Psychotic illness in the past 3 years
  - Serious psychiatric illness
  - If major psychotropic or neuroleptic medication is being taken
  - Alcohol and/or drug misuse in the past 1 year of alcohol and/or drug dependence in the past 3 years
  - Dementia
  - Cognitive impairment likely to affect safe driving
  - Any malignant condition in the last 2 years, with a significant liability to metastasise (spread) to the brain
  - Any other serious medical condition likely to affect the safe driving of a Group 2 vehicle
  - Cancer of the lung
